POST-SCRIPTS

By GEORGE ROTHWELL BROWN

"Passions wild, and follies vain,
Pleasures soon exchanged for pains;
Doubt, and jealousy, and fear,
In the magic dance appear."

Why not refer the Coast Guard's private war with Great Britain to the World Court?

Or maybe an especially engrossed copy of Mr. Kellogg's peace treaty, tied with baby blue ribbon, might stop the carnage.

Hickory, dickory dock,
The boobies ran up the stock,
The Federal Reserve,
With a heck of a nerve,
Then gave the boobies a shock.

"Wall Street, Wall Street,
Have you any wool?"
"Yes, sir, yes, sir,
Three bags full;
One for the rich man,
One for his Jane,
But none for the little tike,
Who lives down the lane."

Mary had a little lamb,
Its fleece was white as snow,
And every time that Mary had,
The lamb was "in the know."
It followed her into the street,
Which was against the rule;
Now when she hears its plaintive bleat,
She knows she was a fool.

It is rumored that John Bull is thinking of reviving that old Rattlesnake Flag—"Don't Tread On Me"—and waving it at the Antislavery League cutters.

Slamming the front door on the disfranchised colored citizen in the South without stopping to think how the G. O. P. needs the colored voter in the North somehow recalls the sweetly and refrain of an old "coon song" of the Nineties that comes vaguely to mind—maybe you'll get the point:

"I know I've to blame,
But ain't dat a shame—
Bill Bailey won't you come back home?"

The creation of a strong white Republican party in Dixie—and that's the only kind to which a Hooverver would accept an invitation—might possibly precipitate the inevitable formation of an independent negro party at the North; and if that party stood on a platform of "Fourteenth and Fifteenth, or you can't have the Eighteenth" it would throw Prohibition into such a fit it would probably swallow its back teeth.

Hush-a-bye margins,
On the tree top,
When Wallen blows
The market will stop,
When "market" breaks,
The credit will fall,
Down will come Radio, Motors and Oil.

Leviathan isn't a bit more backward than Oklahoma and now we may even be reading about the impeachment of Gov. Hooty Long.

Alexandria is seeking a boosty slogan, and why wouldn't "Washington is our largest suburb" do?

"In our tale's enchanted hall,
Hands unseen thy couch are
Fairy strains of music fall,
Every sense in slumber drowsing,
Soldier, rest thy warfare o'er,
Dream of fighting fields no more."
Pershing marches at the side of Foch, as the soldier of deathless fame is borne from the enchanted hall on the Isle to the Seine to his couch beside that of Napoleon and by a singular coincidence it is an historic anniversary in the immortal life of Joan of Arc. Paris touches the heights.

Senator Walsh, of Montana, sees Uncle Sam in the World Court, and with a little better eyesight he might see him in the League. The best way to stay out of a house is to stay out of the vestibule first.

Ambassador Houghton scoffs at the idea of war between the United States and Great Britain. After all, what's an occasional ship seized or sunk between old pals?

John D. Jr., returning from Europe, says that the ouster of Col. Stewart emphasizes the ethical standards of business, and he might have added that it also emphasizes the power of Rockefeller even when he's off the job vacationing.

And it also emphasizes the fact that John doesn't mind putting himself on the back.

The new Hoover policy in the South leaves Perry Howard in a pathetic "coon song" situation—"Won't you open dat do', an' let me in?"

With cherry blossoms sprouting in Potomac Park now is a good time to lay in a supply of canned cherries.

POLICE SHIFTS IN NEW CHIEF'S WAKE OUTLINED

Expected Elevation of Pratt to Bring Many Other Changes.

SHELBY MAY LEAD DETECTIVE BUREAU

Brown Is Favored to Win Position as Assistant Superintendent.

3 OTHER INSPECTORS IN LINE TO ADVANCE

Three Captains in Close Race for Vacancy; Board May Act Friday.

With the retirement of Maj. Edwin B. Hesse, superintendent of police, formally approved by the District Commissioners yesterday, speculation turned to the identity of his successor and the men who will be named to other important posts in the Police Department.

Inspector Henry G. Pratt, senior assistant superintendent of police and chief of the detective bureau, is expected to be appointed chief of police to succeed Hesse.

Inspector William S. Shelby, assistant superintendent of police, who has been personnel officer of the department and is regarded as a police officer of unusual and outstanding qualifications, is to be placed in charge of the detective bureau.

Inspector Brown Favored. Inspector E. W. Brown, head of the traffic bureau, is thought by many in the department as the man likely to be named assistant superintendent of police to fill the vacancy which will exist if Pratt is advanced.

There are four inspectors and in the order of their seniority they are Inspector William H. Harrison, Inspector Brown, Inspector Louis J. Stoll and Inspector Albert J. Headley. From among these four the new assistant superintendent will be selected.

The District Commissioners, having bound themselves by their insistence that they do not know who will be named chief of police, although they will name him, have eliminated themselves from speculation on other probable promotions. Maj. Hesse has taken a claim for his model. Pratt counters inquiries with the declaration that he has nothing whatever to do with the matter.

Will Name Chief Friday. The Commissioners yesterday said they would name the new police chief on Friday. Until and unless they name him, Pratt insisted, he must be left out of the picture and be excused from speculating about possible changes in the department.

Inspector Harrison is senior in rank, but he is beyond retirement age, as is Stoll. Brown is the youngest in years, but ranks Headley in seniority. Brown has handled the difficult Traffic Bureau job well, and although there has been inevitable criticism of traffic control, it has not been directed at the police.

The race for promotion to inspector seems to be closer. Capt. T. B. Bean, commander of the First Precinct, Capt. Martin Reilly, commander of the Sixth Precinct, and Capt. Fred Cornwell, commander of the Fourth Precinct, are regarded as the three outstanding precinct commanders in the department.

Contest Among Captains. Cornwell might well be named as the new inspector. He is popular, widely known and efficient. But he is the junior captain in point of service. Bean has made a fine record in commanding the First Precinct. It is said, and has won the complete confidence of his superiors. Reilly also has won recognition as one of the best commanding officers in the department. Capt. Robert

Cornwell might well be named as the new inspector. He is popular, widely known and efficient. But he is the junior captain in point of service. Bean has made a fine record in commanding the First Precinct. It is said, and has won the complete confidence of his superiors. Reilly also has won recognition as one of the best commanding officers in the department. Capt. Robert

Curator Hopes to Save Innocent Snakes' Lives

New York, March 26 (A.P.).—The snake-in-the-cellar problem, which is one of the most acute household problems every spring where there are wives and cellars, should amount to practically nothing this spring on account of Dr. Raymond L. Dittmars' new illustrated snake book.

Thousands of harmless milk snakes—many of them mother snakes, at that—are slaughtered every year in cellars under the impression that they are rattlers and copperheads.

This carnage is nearly always accompanied by needless excitement in the household. Father goes down into the cellar and sees a snake. He retreats in good order, retreating from mentioning the incident. Later mother goes down to check up on the preserves, and there is the dickens to pay. It really was a snake—and there is nothing for father to do but to kill the monster.

Now Dr. Dittmars, curator of reptiles of the Bronx Zoo, has issued colored pictures of all the local snakes of most vicious making it easy for the layman to identify snakes at sight.

3 SOUTHERN BODIES OF G. O. P. SCRAPPED

Hoover Ends Organizations in Georgia, Mississippi and South Carolina.

FINISH OF LEADERS SEEN

By CARLISLE BARGERON.

President Hoover yesterday dismantled the Republican organizations in three Southern States as evidence of good faith and told the South that his best interests lay in the development of the two party system of government.

He has approved plans, he said, for the setting up of advisory councils in Southern States to act in patronage matters and to bring about a consolidation of Republicans and Hoover Democrats.

The three States in which the Republican organization was torn down were Georgia, Mississippi and South Carolina. The method was simply the withdrawing of patronage recognition.

Mr. Hoover first told of the plan at his noon conference with newspaper men and subsequently the Postoffice Department issued a statement saying: "Until the Republicans of South Carolina, Georgia, and Mississippi place the control of their party organizations in the hands of men and women who enjoy the respect and confidence of their fellow citizens and who are genuinely desirous of promoting honesty and efficiency in public service, the Postoffice Department will, on its own initiative, seek the advice of citizens of the States named who can be relied upon to advise the department in the public interest."

In brief, this means the political end of "Tireless Joe" Torbert, South Carolina leader, and Perry W. Howard, who occupies the same position in Mississippi. It would likewise mean the end of Ben Davis in Georgia, were it not for the fact that he has been "out" for several months, and the party in his State is leaderless.

In so far as Howard is concerned, the President's decision accomplished what the Department of Justice tried to do, and there will probably be much wailing and gnashing of teeth. He was tried and acquitted of charges of bribery in Federal patronage but other counts are still pending, a second trial set a few days ago having been postponed. It was the contention of Howard's supporters that in the absence of a conviction no political action could be taken against him. They were wrong.

Apparently, R. B. Creager, Texas leader, who along with Davis, Torbert and Howard came under the fire of the Brookhart patronage investigation committee, weathered the attack. The President did say, however, that an advisory committee was to be set up in Texas and also Alabama, Florida and "other States."

It developed later that Oliver D. Street, Alabama leader who had a tilt with Chairman Work of the Republican

MILLION MOURN AS FOCH'S BODY IS LAID TO REST

Great Display Features Funeral of Simple Leader of Armies.

SCENE WITHIN WALLS OF NOTRE DAME VIVID

French Premier, in Brief Eulogy, Says Hero Aimed to Serve.

HUGE PAGEANT BEARS COFFIN TO INVALIDES

Procession to the Tomb of Napoleon Marked by Two Discordant Notes.

Paris, March 26 (A.P.).—Marshall Foch was laid to rest today near the tomb of Napoleon.

More than a million heads bowed as the great soldier was borne on a gun carriage from the stately gothic nave of Notre Dame Cathedral to the simple and severe chapel of the Invalides.

Church and state, separated in France for more than 20 years, united for the day to provide the devout, Christian soldier with a national funeral unparalleled in pomp and magnificence. The world has seldom seen its like before and it is not probable that such a show of solemn splendor will be repeated in this age.

The Republic of France and the Church of Rome were joined by ten nations whose armies Foch commanded in the greatest of wars in heaping honors upon the bier of the modest master of 10,000,000 warriors.

Most of the civilized world was represented at the church funeral ceremony and in the cortege that moved with military pomp and precision through the streets and squares of Paris from Notre Dame to the golden dome of the Invalides. It was the fifth day on which France had mourned her greatest soldier of modern times.

Desire to Serve Lauded.

The great outpouring of people who watched the funeral procession provided the crowning stone of the great edifice of honor and love which a grateful nation and friendly peoples of other lands have steadily built to the greater glory of Foch's name since the day he was chosen from all the military commanders of the allies to lead 10,000,000 men fighting under ten flags.

Premier Poincare, who was president of France during the war, said in his brief funeral address that Foch had no other ambition than to serve and had wished no other recompense than the assurance of having accomplished his duty.

Paris put aside both her work and her pleasures to pay her tribute. Many other cities did the same. It was truly a day of national mourning in provincial cities and in every town and village that supports the church, services for the man who delivered France from the invader were held. In Paris stores were closed in the morning during the funeral services, and theaters did not open in the afternoon or evening.

Paris Arises Early. Paris was up early and dressed in the most brilliant of her more serious garb for the unforgettable funeral. At two o'clock in the morning people began to take their places along the route between the cathedral and the tomb.

Soon after dawn the streets over which the gun carriage was to bear Foch to his resting place were strewn with clean sand, soldiers with fixed bayonets formed an aisle more than a mile and a half long, through which the cortege was to pass.

By 8 o'clock half of the 5,000 persons admitted to the funeral services had taken their places at Notre Dame. At 8:30 six carriages, their black curtains drawn, brought to the cathedral the widow, brother, two daughters and the grandchildren of Foch, together with other relatives and his close friend, Gen. Weygand.

Prince Charles of Belgium, representing King Albert, arrived a few minutes later.

Prince of Wales Arrives. Immediately after, the Prince of Wales stepped from his automobile, shook hands with members of the French cabinet who were awaiting the president of the republic on the cathedral steps, and took his place well down the nave near the catafalque.

At 9 the carillon of the cathedral rang out in the still and foggy morning air.

President Doumergue arrived as the official representative of the whole of France. He was received by Cardinal Dubois and conducted to his place in the president's chair in front of the Foch family.

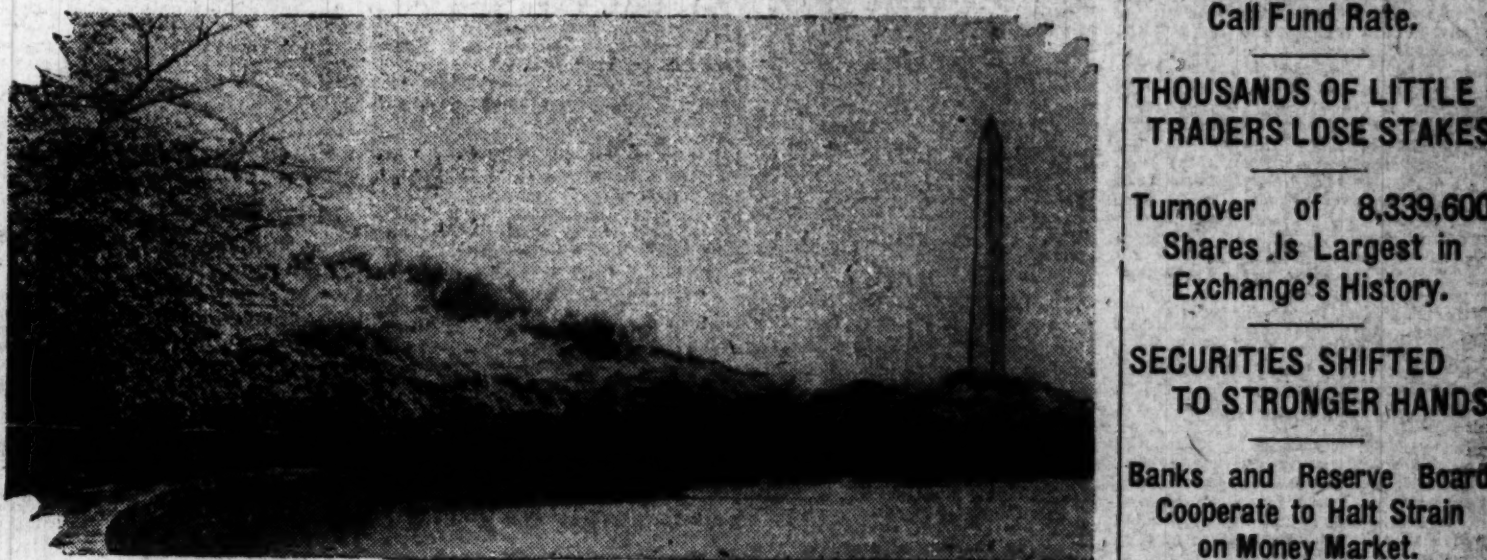

The carved portals of Notre Dame were then closed, the organ sounded the solemn music of the "De Profundis" and the funeral mass began.

Seldom even in times of the Kings of France had the light filtering

ORIENTAL BLOOMS BEDECK POTOMAC PARK

SHIP SINKING RAISES AFFRONT QUESTION

Canadians and British Held to Resent U. S. Firing on Their Flag.

INTERPRETATION IS ASKED

By ALBERT W. FOX.

Canada officially notified the United States Government yesterday of her intention to take up the case of the I'm Alone, British schooner of Canadian registry sunk with loss of life on the high seas by gunfire from American cutters last Friday. At the same time it became known that a broad gauge question of national affront is to be raised by the British and Canadian governments as a result of the manner in which the American cutter when she fired on the British flag 200 miles off shore and sent the British-Canadian ship to the bottom.

The first inkling of this latter serious point came yesterday when it was explained in guarded words that the United States Government will be asked whether, in its opinion, the case justified "the violent means taken."

In other words, the United States will be called upon to inform the British and Canadian governments whether it is America's intention to claim the right under any circumstances to sink British ships by gunfire on the high seas, put leg irons on the officer and manacles on the crew and carry them for trial to an American port 200 miles distant. The inquiries will be made in the usual diplomatic language but the main points covered by the I'm Alone incident will be made a direct issue for diplomatic discussion.

Vincent Massey, the Canadian Minister to the United States, called at the State Department yesterday and informed Assistant Secretary Castle that the Canadian government had directed him to take up the I'm Alone case and procure all available information. The State Department is not satisfied with the information so far received and consequently has not yet complied with the Canadian Minister's request. There appears to be confusion in the reports emanating from New Orleans, and absence of important information despite the Coast Guard reports which characterize the sinking of the British ship as "proper and commendable."

Coincidentally the Canadian Minister's visit to the State Department, the Canadian Legation here made public the following statement, showing that the British government does not intend in any way to withdraw from the case:

"When the first reports of the sinking of the I'm Alone appeared in Saturday's papers, the name of the vessel was given incorrectly and was indicated that she was of British West Indian registry. In consequence the British Ambassador made inquiries at the State Department on Saturday morning concerning the incident in the belief that the I'm Alone was not a Canadian vessel."

"As soon as the vessel's correct name and registry were known, the British Ambassador requested the State Department to address the reply to his inquiries to the Canadian Minister."

"Any discussion of the case which may be necessary with the Government of the United States will be conducted by the Canadian Minister, who has already inquired at the State Department concerning the incident. The British Ambassador, of course, will retain a direct interest in the question should it be found that the interpretation of the liquor smuggling treaty of 1924 is involved, since this treaty concerns every unit of the British Commonwealth."

The British and Canadians are convinced that America has right under international law to regard the 19-mile limit as American territorial waters nor to claim that sinking of a ship 200 miles offshore on the high seas can be justified on the principle of hot pursuit.

Deputy Killed Mother Wantonly, Says Son, 12

Seeking Liquor, Sheriff's Aid Slays Woman and Beats Husband; Assistant Attorney of Illinois Backs Raider, Claims Self-Defense as Motive.

Aurora, Ill., March 26 (A.P.).—The 12-year-old boy who wielded a gun last night in defending his prostrate father and slaying his mother against county dry raiders came to his parents' defense again today before a coroner's jury.

The testimony of Gerald De King challenged the story of Deputy Sheriff Roy Smith that he shot the boy's mother as she leveled a gun at him. He told the jury, impaled late today, that Smith had shot his mother down as she stooped over the fallen body of her husband, Joseph De King, who had been killed by a blow on the back of the head as he stood, two guns gripped, ready to repel the invasion of his home by the raiders.

States Attorney George Carberry said tonight he had heard Smith's version of the shooting from the hospital bed in St. Charles, where Smith lies, his leg broken by a bullet fired by the boy. Carberry's drive to suppress the liquor, vice and gambling traffic in Kane County has brought in \$52,000 in fines in the last sixteen weeks.

Smith told him, Carberry said, that Mrs. Lillian De King stooped to pick up her husband's gun, ordered the deputy out of the house and leveled the gun. He fired, aiming at the gun she held, and the bullet entered the woman's abdomen.

Both Gerald and Peter De King, his uncle, told the coroner's jury Mrs. De King did not lift the gun. Coroner Herman J. Vierge, of Elgin, adjourned the jury indefinitely to await the recovery of Smith.

Carberry anticipated a verdict of "killed while resisting an officer." Gerald De King said the officers used tear gas bombs after the shooting, and this was confirmed by Deputy Sheriff Hale Treadwell. Treadwell was posted at the side door when he heard the shooting within. Rushing around to the front, he explained, he broke the glass in the door and tossed a tear bomb in, thinking to aid Smith.

"I greatly deplore the tragedy, but I believe the officer was acting in the line of duty," Carberry said today. "I am satisfied if Smith had not fired seven shots, the raid would have been a period of excessive speculation."

Worst Is Believed Over. The future of the market remains difficult of appraisal. The excellent character of the buying which caused the rally strongly suggests that the worst of the liquidation is over. It is therefore probable that recovery will be extended, but whether there can be any advance approximating that of the latter part of last December is at least doubtful. The credit problem has not been solved. A broad and too quick

Entire List in Recovery, Despite 20 Per Cent Call Fund Rate.

THOUSANDS OF LITTLE TRADERS LOSE STAKES

Turnover of 8,339,600 Shares Is Largest in Exchange's History.

SECURITIES SHIFTED TO STRONGER HANDS

Banks and Reserve Board Cooperate to Halt Strain on Money Market.

New York, March 26 (N.Y.W.H.).—The conservatives in Wall street had their day of victory today, the reward of months of patient waiting. In a trading session amazing and unprecedented a halcyon change occurred. For more than three hours stock prices crashed lower and lower under the heaviest deluge of liquidation the financial district has ever experienced. Then, as if by magic, the storm clouds lifted. The entire market bounded back in a rally almost as startling as the previous break.

The morning was Waterloo for thousands of small speculators, who, in the face of obvious credit dangers, had been foolhardy enough to jeopardize themselves with thin margins. By noon a long list of stocks showed losses ranging from 5 to 20 points. Despite the generally high level of margins, which brokers had long been insisting upon, many accounts, impaired by more than a week of steady selling, had to be thrown overboard.

On top of this forced liquidation there was a huge volume of frightened selling. All over the country small speculators engaged in a mad rush to get out of the market, intent upon liquidating in such paper profits as remained on conserving at least part of their equities. As a result market quotations melted like butter in hot sunshine. All classes of stocks, good, bad and indifferent, suffered alike. Issues which were inflated a fortnight ago touched bargain levels in big time.

Bargain Hunters Are Alert. And as they did the bargain hunters were found to be on the job with the financial strength they had been cautiously conserving these many weeks. They bought right and left "at the market." Choice stocks snapped back so vigorously that closing prices represented only moderate net changes, some down, but many higher. Extensive short covering was an added factor of support in turning the tide.

Since the net price changes are not important, that probably small minority of citizens who have no personal interest in the stock market may well wonder what significance can be attached to the record-breaking session. Those who have risked their money know the answer. In this one day the character of ownership of the floating supply of worthy issues has undergone a remarkable change.

It is the familiar cycle, perhaps not yet complete. Stocks have passed from weak to strong hands. The cynic will say that "the lambs have been sheared." In truth, they have, but if blame is to be apportioned, little of it can attach to the investors who, in the opportunity which the stock market invariably presents sooner or later after a period of excessive speculation.

Worst Is Believed Over. The future of the market remains difficult of appraisal. The excellent character of the buying which caused the rally strongly suggests that the worst of the liquidation is over. It is therefore probable that recovery will be extended, but whether there can be any advance approximating that of the latter part of last December is at least doubtful. The credit problem has not been solved. A broad and too quick

advance from these levels would produce a credit stringency as acute as ever.

The most interesting aspect of the market's sharp decline is the part which the banks have played in bringing it about. Their action in refusing to relieve the seasonal call money squeeze is the most important credit development which has occurred since the Federal Reserve Board issued its warning on February 7.

It was realized at that time by intelligent observers that the banks retained a very definite power over the money market, regardless of the fact that approximately half of the funds supplied the call loan market came from corporations. For months there have been recurrent periods of strain as these corporate funds were temporarily withdrawn. Heretofore the banks have always stepped in to ease the strain.

Satisfactory to Reserve Authorities.

The question was whether they would continue to do so. It has now been answered in a manner which must be highly satisfactory to the reserve authorities. The developments at Chicago and the course of call money during the last two days clearly indicate that the banks are working in close cooperation with the reserve board.

This amounts to saying that the reserve board has been successful in its effort to curb expansion of speculative loans, for, if necessary, the same power now being applied can be employed at future periods of acute call money stringency.

Only a few details of the session need be mentioned. The opening was irregular, but liquidation began at once and of the first hour as hundreds of accounts were closed out. A 12 percent renewal rate for call money proved extremely apprehensive, and was quickly followed by an advance to 15 percent. Early in the afternoon the rate jumped to 17 percent, and shortly before 3 p. m. it was increased to 20 percent. As bidders found that the banks were declining to come to the market's aid. Not since 1920 has there been such a squeeze.

Turnover, \$339,600 Shares.

The volume of trading amounted to \$339,600 shares, going far above the former record made last November. The ticker system broke down completely under the impact of this business, falling further and further behind. At the close it was more than one hour and twenty minutes late.

The market was at its worst shortly after the call rate reached 17 percent. Thereafter the rally set in and the final increase to 20 percent was ignored. After showing early losses ranging from 5 to 10 points or more, such leaders as United States Steel, General Motors, American Can, Westinghouse Manufacturing, Montgomery Ward, Union Carbide, Radio, Packard, General Electric, National Cash Register, Bethlehem Steel, Erie and Union Pacific showed either moderately higher or firm.

MISSING IN PLANE

T. Raymond Finucane (above), wealthy Rochester, N. Y., real estate operator, who was a passenger on the amphibian plane which disappeared after leaving Norfolk, Va., for New York. Robert Boyd (below) was the mechanic aboard.

MISSISSIPPI RIVER FALLING AT QUINCY

Flood Danger Is Believed to Have Abated; Pumps Check Seepage.

Quincy, Ill., March 26 (A.P.).—With a stage of 19.8 registered on the Government gauge tonight, the Mississippi River has fallen five-tenths of a foot in 24 hours, and levee commissioners in Illinois and Missouri believed the flood danger had temporarily abated.

Water is still seeping through the earthen walls at Lima, LaSalle, South Quincy, Falsburg and Gregory districts, all located in this section, but pumping plants are able to cope with it.

The reduction of pressure accompanying the drop will gradually cut off this seepage.

Baker Will Celebrate 89th Birthday Quietly

Brunswick, Ga., March 26 (A.P.).—George F. Baker, chairman of the board of the First National Bank of New York, and sometimes called dean of American bankers, tomorrow will observe his eighty-ninth birthday. Baker is said to be spending the winter. The aged financier is said to be enjoying unusually good health.

FLEERS FAIL TO FIND FOUR IN LOST PLANE

Aviators and Posses, Afoot, Still Seek Quartet in the Missing Amphibian.

MARTIN JENSEN ASSISTS

New York, March 26 (A.P.).—Boats and planes and searching parties afoot continued to look for the missing amphibian and the coast line from New York today, but no sign was found of four men who disappeared after taking off early Friday morning from the Virginia city in a Sikorsky amphibian. The missing plane was chartered last Thursday in Miami by R. Raymond Finucane, wealthy Rochester, N. Y., sportsman. It was piloted by Harry Smith, Curtiss flying service veteran, and was occupied also by Frank Abels of Mineola, and Robert Boyd of Portland, Maine.

A report of a plane landing in the South Jersey woods Friday afternoon caused concentration of the search there, especially in a section that was said to be near the coast. Coast and American Legion searchers who tramped through the blackened forest and aviators who flew above it found nothing which would shed light on the mysterious disappearance.

Among the sky searchers today was Martin Jensen, second place winner in the Dole race from California to Hawaii in 1927, who flew over New Jersey from Curtis Field.

Dowager Marchioness Of Cambridge Is Dead

London, March 27 (Wednesday) (A.P.).—The Dowager Marchioness of Cambridge, sister-in-law of the late King George V, died at midnight from septic pneumonia.

The Dowager Marchioness of Cambridge was Margaret, daughter of the first Duke of Westminster. She was married in 1894 to the Marquis of Cambridge, brother of Queen Mary, who died in 1927. The marchioness was born in 1873.

Official of Auto Firm, 46, Is Dead in Florida

St. Petersburg, Fla., March 26 (A.P.).—Henry Elliot Rose, 46 years old, sales manager and vice president of the St. Petersburg Motor Corporation, of Detroit, died here tonight after an illness of several weeks.

Mr. Rose came to St. Petersburg about three months ago for his health on a year's leave of absence from the company. The body will be returned to Detroit tomorrow.

O. E. Bradfute, 67, Farm Leader, Dies

Xenia, Ohio, March 26 (A.P.).—Oscar E. Bradfute, 67 years old, prominent Ohio farm leader, died last night of cerebral hemorrhage following an operation two weeks ago.

Services for Former Chief of Ohio Bureau Will Be Held Tomorrow

Xenia, Ohio, March 26 (A.P.).—Oscar E. Bradfute, 67 years old, prominent Ohio farm leader, died last night of cerebral hemorrhage following an operation two weeks ago.

Mr. Bradfute was a former president of the Ohio State Farm Bureau and the American Farm Bureau and served on industrial and agricultural commissions of two Presidents. He was elected president of the Ohio Farm Bureau in 1919 and held that office until 1923, when he resigned to become president of the National Farm Bureau of Ohio. He held the latter position three years.

The late President Wilson appointed him to membership on his industrial commission a decade ago and in 1925 President Coolidge named him the American delegate to the World Agricultural Conference in Rome.

Bradfute was one of the organizers of the international live stock exposition in Chicago in 1900. He was a former president of the American Angus Association and a member of the executive committee of the National Live Stock Association. Funeral services will be held at 2 p. m. Thursday.

COL. MYRON M. PARKER BURIED

Rites for Former City Commissioner Are Held at Last Residence.

Final rites for Col. Myron M. Parker, 82 years old, former District Commissioner, who died Sunday, were conducted yesterday morning at his residence, 1020 Vermont avenue northwest. The Rev. Dr. U. G. B. Pierce, pastor of All Souls Unitarian Church, officiated. Burial was in Rock Creek Cemetery.

In respect to Col. Parker, all flags were flown at half-mast on municipal buildings. Col. Parker was a member of the Board of Trade, a thirty-second degree Scottish Rite Mason, and had the distinction of being the oldest past grand master of Masons in the District.

MRS. MAY'S RITES TODAY

Artist Will Be Placed in Grave at Cemetery.

Funeral services for Mrs. Ruth Matilda May, 82 years old, widow of Dr. Edward Stillman May, Union Navy veteran, who died Saturday at the residence, 3841 R street northwest, will be held at 10:30 o'clock today. The Rev. Dr. George F. Dudley will officiate. Burial will be in Arlington National Cemetery.

Mrs. May was born at Ann Arbor, Mich., in 1847. She was well known in Washington as an artist. Her husband was for a number of years in the Treasury Department. She is survived by two daughters, Mrs. Daniel M. Woods, and two sisters, Mrs. Mary J. Hill and Miss Grace D. Hall, of Cincinnati.

HENSLEY RITES TODAY

Funeral of Maj. William N. Hensley, Jr., Air Corps, first American to fly from this country to Europe, in the British airship, R-34, in 1919, who died Friday, will be held in Arlington National Cemetery tomorrow afternoon at 3 o'clock. Maj. Hensley died aboard a train en route from this city to Mayo Hospital, Rochester, Minn.

Services will be held at the grave, and the following West Point classmates of Maj. Hensley will be honorary pallbearers: Maj. John H. Case, Ordnance Department; Berkeley T. Merchant, Cavalry; Thomas H. Lowe, Adjutant General Department; Louis A. O'Donnell, Cavalry; Walter E. Prosser, Signal Corps; Ralph Talbot, Jr., General Staff.

WILLIAM ROOT CAMPBELL DIES

William Root Campbell, 65 years old, of 1117 E street northeast, died yesterday at his residence following a lingering illness. Funeral services will be held tomorrow afternoon at 2 o'clock from the residence. Interment will be at the Congressional Cemetery, with Harmony Lodge, No. 17, Masons, conducting.

Mr. Campbell is survived by his widow, Mrs. Pauline Frederick Campbell, and four daughters, Mrs. Charles B. Barker, Mrs. Florence Campbell, Miss Frances Campbell and Miss Helen Campbell, all of Washington.

Naming of Non-Italian Pope Held Unlikely at Vatican

Cardinal Galli's Death Increases Majority of Foreigners.

Rome, March 26 (N.Y.W.S.).—Although the premature death today of Cardinal Aurelio Galli at the age of 68 reduces the number of Italian cardinals in the Sacred College to 27, as compared with 33 foreign members, the Holy See feels no anxiety lest the sudden catastrophe should lead to the election of a non-Italian Pope. Several new cardinals—probably four or five—are expected to be created at the consistory to be held some time in May, and the likelihood is that they will all be Italians.

Cardinal Galli died early this morning after a few days' illness. With his passing the Holy See loses its most distinguished Latinist and the Sacred College one of its most brilliant members. Cardinal Galli was called ill while visiting the ancient church of St. Onofrius. He was carried immediately to the convent of the Dorian Sisters nearby, and died there, as the doctors feared to attempt his removal.

The Holy father decided today to postpone the funeral until after Easter.

CARDINAL GALLI

Cardinal Galli helped to compose the Latin text of many of the famous encyclicals and pontifical allocutions during the reigns of Pope Leo XIII, Pius X, Benedict XV and the present Pope. Although his death increases the minority of Italians in the Sacred College, it was stressed at the Vatican today that, even should the Holy See become suddenly vacant, the cardinal residing at Rome, regardless of his nationality, would vote for an Italian Pope. Whether the possibility of a non-Italian pontiff will materialize after the Vatican State is brought into being and set upon its new historical path is another matter. Today, when the Lateran treaty, which declares the complete independence of the Vatican State and the temporal sovereignty of the Pope awaits ratification by the Italian Parliament, no such revolutionary change is feared in Rome.

The last non-Italian Pope was Adrian VI, born at Utrecht, Holland, who became pontiff in 1522.

2 KILLED IN BLAST AT POWDER PLANT

Sections of Three States Are Shaken by Explosion at Gibbstown, N. J.

PROPERTY LOSS \$20,000

Philadelphia, March 26 (A.P.).—Two men were killed and sections of three States were shaken today as 3,000 pounds of nitroglycerin exploded in the plant of the Du Pont Powder Co., at Gibbstown, N. J., 18 miles south of Philadelphia.

The dead are: John Kern, 55, a widower, of Paulsboro, N. J.; Luigi Pizzidrilli, Norristown, Pa.

The explosion occurred in a small room in the plant, where was being stored dynamite. The dynamite was being used in the manufacture of dynamite, of which it is the basic element, was contained in lead tanks.

The cause of the explosion probably will never be known. No one else was near the building when the explosion occurred.

Other buildings in the plant were slightly damaged, and many windows were shattered. The explosion was heard as far south as Vineland, N. J., and as far north as Mount Holly, N. J. It also was felt in upper Delaware, and in Philadelphia the powder works spread over nearly 4 square miles, with buildings far apart so that the damage from explosions was possible.

Alumni of Central High Planning Annual Dinner

Encouraged by the success of the banquet that was held last year, the Alumni Association of Central High School is planning a bigger one this year. It was disclosed last night at a meeting of the association at that school.

Tentative plans were made to hold the banquet at the end of May.

School Site Approved By Georgetown Group

A resolution asking for location of the proposed colored health school on a site in Georgetown was adopted last night by the Georgetown Civic Association, which met in the Phillips School Building. Members of the association, after being informed of consideration of other sites by the Board of Education, supported the resolution in the belief that Georgetown offers the best site.

A letter from a poll committee seeking endorsement of candidates for appointment to the Public Utilities Commission was tabled. The association declined to take action on the ground that consideration of the poll committee measure would interfere, in effect, with the committee itself.

Utah Bans Billboards Advertising Tobaccos

Salt Lake City, March 26 (A.P.).—No longer may billboards in Utah blazon the praises of this or that cigarette or other forms of tobacco. Gov. George H. Dern today signed a bill passed by the recent legislature prohibiting such display.

SPANISH FLIERS END LONG HOP IN BRAZIL

Atlantic Is Spanned Seventh Time by Two, Who Land at Bahia, Near Goal.

FUEL SHORTAGE ENDS TRIP

Bahia, Brazil, March 26 (A.P.).—Virtually unreported since leaving the coast of Africa, the Spanish airplane team Del Ocaso Podes, with Capt. Ignacio Jimenes and Francisco Iglesias, unexpectedly ended a brilliant flight from Seville at 10:30 a. m. today on the Latacoere field here.

Only once since leaving the African coast were they reported, that was by an operator of the National Telegraph at Natal, who said they had passed over that place at 2:55 a. m. So close to schedule was this that it seemed to aviation experts a feat of outstanding brilliance.

The plane was reported to have passed over the island of Fernando de Noronha, off the coast of Brazil, somewhat earlier, but there were no witnesses and it was not sighted south of Natal until it passed over Bahia, circled, flew back and landed. The chief reason of the landing was because of the low level of the gasoline, making it inadvisable to continue the flight, which lasted 48 hours and 48 minutes, covering a distance without a stop of 4,100 miles.

Flies Are Exhausted.

The extreme fatigue of the aviators caused them to decide to rest at Bahia for two days before starting on the 800-mile hop to Rio Janeiro, which had been the goal of their flight.

Shortly after landing at the Latacoere field the aviators were greeted by the Spanish consul of Bahia and other officials.

The Spanish consul later issued an official statement, saying: "The sole cause of landing was lack of gasoline. The machine is in fine condition and the aviators are in perfect health. They are resting at the Hotel Meridional."

Both fliers expressed disappointment that they had been unable to break the record established by Arturo Ferrarin and Carlo P. Delprato, the Spaniards who flew from Rome to Brazil by way of the Cape Verde Islands, covering about 4,600 miles, last year.

After greetings the men had luncheon and went to bed to recover from their fatigue.

Plane Not Sighted.

The fliers were not sighted along the Brazilian coast because they flew at an unusually high altitude to escape squalls and rain encountered shortly after making their land fall.

Meanwhile at Rio Janeiro military officials had gathered at the Campo das Afonso ready to meet the men, who were expected about midday. When news of the landing at Bahia was received the crowd dispersed somewhat disappointed that the fliers had been unable to make Rio Janeiro in a single hop.

Rome, March 26 (A.P.).—Estimates here tonight showed that the Spanish

STIMSON CONFERS ON ARMS QUESTION

New Secretary of State Starts
Work Immediately on His
Arrival in Capital.

IS WHITE HOUSE GUEST

(Associated Press.)
Henry L. Stimson lost little time after his arrival here yesterday from New York in beginning the task of acquainting himself with the questions with which he must deal as Secretary of State.

Within less than half an hour after he stepped from the train at the Union Station he was in conference with President Hoover, and then passed the remainder of the afternoon at the State Department conferring with Secretary Kellogg and Ambassador Hugh S. Gibson, head of the American delegation to the preliminary arms conference to open next month at Geneva.

Mexican affairs and the arms conference were the first subjects to which Mr. Stimson gave attention, as they are the most important of the current problems. Later he will take up such matters as reparations, the World Court and State Department and diplomatic shifts and appointments.

Takes Oath Tomorrow.
Mr. Stimson, who will take the oath of office late tomorrow, is to be a guest of President Hoover at the White House during the remainder of the week, and will have ample opportunity for discussions with the Chief Executive on many subjects.

Arriving here at 3:15 p. m., Mr. Stimson was met at the train by Secretary Kellogg, J. Reuben Clark, Jr., Undersecretary of State, and the Assistant Secretaries, and by George A. Almon, the President's secretary. The former Governor General of the Philippines declined to make any statement either upon his arrival or after his first conferences at the White House and the State Department.

From the station the incoming Secretary was accompanied to the White House and then went to the executive offices, where he was greeted by the President.

"I am glad that you are here," Mr. Hoover said, as he shook hands. "And I am glad to be here," responded Mr. Stimson, whose arrival completes the circle of the Hoover Cabinet.

Mexican Strife Discussed.
Ambassador Gibson was waiting at the State Department and he and Mr. Stimson and the retiring Secretary went over the disarmament questions, which are to come before the Geneva conference. Later the Mexican rebellion was discussed at some length.

Because of the departure of Ambassador Gibson and Secretary Kellogg for Europe Friday these two questions are first on the list of those to which the incoming Secretary will give careful study before he takes over his duties.

Another problem of importance before the State Department is that of the sinking of the Canadian schooner I'm Alone, by Coast Guard cutters in the Gulf of Mexico last week. Vincent Massey, the Canadian Minister, has made inquiry of the department as to the facts and the attitude of his government will be guided by the department's reply and the report of the Canadian consul at New Orleans.

A subject outside of the jurisdiction of the State Department on which President Hoover will consult his new Secretary of State is that of a successor as governor general of the Philippines. After William J. Donovan, former assistant to the Attorney General, declined this appointment, Mr. Hoover decided to await the arrival here of Mr. Stimson before filling the post.

Philadelphia Buys Old Print.
London, March 26 (A.P.).—Dr. Abraham S. Rosenberg, book collector of Philadelphia, paid \$2,500 (approximately \$14,000) at Sotheby's auction rooms for "The Chronicle of England," printed by Caxton in 1480.

SECRETARY OF STATE GREETED

Underwood & Underwood.
President Hoover greets Col. Henry L. Stimson, the new Secretary of State, in the presence of retiring Secretary of State Frank B. Kellogg. Col. Stimson arrived yesterday from the Philippines, where he was governor general.

RESOLUTION TO IMPEACH LONG ON 19 COUNTS READY FOR ACTION

CONTINUED FROM PAGE 1.

duced containing the sworn affidavit of Harry A. Boesman, who charged that Gov. Long attempted to hire him to murder J. Y. Sanders, Jr., member of the House of Representatives, because he opposed his legislative program. Boesman until recently was a personal attendant of Gov. Long, and recently was dismissed from the State highway department. Years ago he was known in the prize fight ring as "Battling" Boesman.

His affidavit said:
"Huey P. Long sent for me to come to the governor's mansion about five or six weeks ago. The governor said to me, 'Battling Boesman, I am the kaiser of this State. When I crack my whip whoever dares to disobey my orders, regardless of what they may be, I'll fire 'em. They won't last as long with me after disobeying one of my commands as a snowball will in hell.'"

"Shut that door over there," he says, the affidavit continued.

"Come down here and sit down by me." The governor had been drinking; I smelled it on his breath.

"He says, 'Battling Boesman, I am going to call an extra session of the Legislature,' and he says 'this blank J. Y. Sanders, Jr. is going to disapprove of all my measures and I want to get him out of my way. I have chosen you to do away with this blank.'"

"I mean," he says, 'governor, what do you mean?'"

"I will investigate 'Plot.'"

"In about a couple of weeks the governor stopped me on the street while I was here during the week-end, and says to me, 'Well, what about it?' I says, 'Oh, everything seems to be all right. I believe it's going to rain.' The governor says, 'Blank the rain; I mean what about Sanders?' whereupon I says to the governor, 'I have given you my final answer as to him.'"

"Very well, remember what I told you. I'm the boss," he roared at me, and turned, mad, walking away.

"I went on back to New Orleans and after a few days a telegram came from

L. R. Ames, saying to pay Boesman off immediately, right now, not tomorrow."

The resolution, which also went over until tomorrow, directed the appointment of a committee to investigate Boesman's charges, which are the basis of the nineteenth charge in the impeachment resolution.

The other charges were condensed in the resolution under the headings "guilt of crimes and misdemeanors in office, incompetency, corruption, favoritism, oppression in office and gross misconduct," and eighteen alleged specific instances were cited.

Factions in First Fight.
Introduction of the impeachment resolution came as a sequel to stormy political controversies in which the governor lost the support of virtually the entire press of the State and many of his former political allies, including Col. Robert Ewing, Democratic national committeeman from Louisiana.

Tonight Gov. Long, who swept into office eleven months ago with the support of strong political factions, apparently had lost his control over the Legislature, which he called into special session last week to enact tax measures.

Later he started a move to adjourn the session at once, but this failed last night when the Assembly broke up amidst fist fighting and disorder.

The governor's opponents spent all of last night in the preparation of impeachment charges and today succeeded in introducing them after a long session.

Gov. Long tonight sent word to the Associated Press that he would have no statement to make concerning either the impeachment charges or Boesman's affidavit.

Stewart Ouster Held Ethical by John D., Jr.
New York, March 26 (A.P.).—John D. Rockefeller, Jr., returning today from a three months' trip abroad, characterized the removal of Cpl. Robert W. Stewart from the chairmanship of the board of the Standard Oil Co. of Indiana as "significant because it emphasizes the conviction that the highest ethical standards are as vital in business as they are in other relations of life."

FIRING ON BRITISH FLAG RAISES ISSUE

CONTINUED FROM PAGE 1.

suit, especially when the cutter Wolcott, which pursued the I'm Alone, was not the ship which sent the British craft to the bottom. The cutter Dexter fired the shots which sank the British vessel and the Dexter came into action two days after the pursuit by the Wolcott began.

But it is realized in British and Canadian quarters that these questions will be thrashed out later when the time comes to place responsibility and assess damage, if damage is to be assessed.

It is the bigger and broader question of whether the methods followed by the American ships are in any event justifiable, which is being considered at present. This is the phase of the matter which is being followed by British and Canadian public opinion and indignation in these countries has necessarily become a matter of immediate concern.

Public opinion in Canada must admit to be reckoned with. The fact that Capt. Randall, British schooner I'm Alone, is a World War hero who received the Distinguished Service Cross for heroism in line of duty tends to make the case more serious in Canadian eyes.

But from the standpoint of the Canadian government the fate of the liquor treaty between Canada and the United States remains uppermost.

Canada's acceptance of this treaty has been characterized by Canadians as unwarranted in the sense that the treaty gave Canada nothing whatever in return for her agreement to assist the United States in preventing smuggling of liquor into American ports.

The treaty has been referred to in Canada as the most one-sided convention ever signed between two governments.

Opinion has been growing in Canada that the Canadian government is being used as a sort of prohibition agency by the United States and that steps must be taken to bring about a change.

This opposition to the liquor treaty and to Canada's activities on behalf of the United States along the border has been smoldering for some time, according to diplomats here. The sinking of the I'm Alone is the first incident regarded as likely to fan this smoldering opposition into a flame.

Good Appoints Officers On Pay Inquiry Board

Three officers were named by Secretary of War Good yesterday as Army members of a joint Army-Navy War committee suggested by Secretary of the Navy Adams to consider changes in the present pay schedule of officers.

Army designations are Brig. Gen. George S. Stimmmons, assistant chief of staff, war plans division, War Department general staff; Col. Frederick W. Coleman, finance department, and Lieut. Col. William Brydon, field artillery.

Norman Again Heads Bank.
London, March 26 (A.P.).—The Right Hon. Montague Norman was reelected governor of the Bank of England today. Sir Ernest Harvey was named deputy governor.

CAPTURED AT SEA

CAPT. JOHN THOMAS RANDALL, Canadian skipper of the I'm Alone, British schooner sent to the bottom of the Gulf of Mexico by the United States Coast Guard when Randall refused to submit to search.

12-Hour Time Reduction On Air Mail Announced

Reducing by twelve hours the time of the air mail between New York and San Francisco was announced yesterday by Postmaster General Brown. The reduction, which will come about as the result of completion of a lighted airway at both terminals, will be effective within 30 days, he stated.

The new schedule will be made possible by completion of a lighted airway between San Francisco and Salt Lake City, Utah. This will enable both east and west bound planes to arrive at their destinations in the morning.

Southern Pacific Asks \$65,000,000 Bond Issue

(Associated Press.)
The Southern Pacific Co. yesterday asked the Interstate Commerce Commission to approve a bond issue with a total value of \$65,000,000.

The new securities will carry rights by which purchasers will hold an option to buy Southern Pacific common stock. The proceeds will be chiefly used to pay off maturing indebtedness, but some portion of it will be available to meet budgeted improvements to the Southern Pacific system.

Interior Bureau Heads Are Retained in Posts

(Associated Press.)
Secretary Wilbur said yesterday that the resignations of Commissioner Mead, of the Reclamation Bureau, and Director Smith, of the Geological Survey, had been returned.

It has been generally understood at the Interior Department that both Mead and Smith would continue in the direction of their respective bureaus.

\$10 CAMPSITES 20x20 Feet AT MARSHALL HALL

ADDRESS BOX 3, WASH. POST

I'M ALONE CAPTAIN IS RELEASED IN BAIL

Members of Crew, Sunk by
Cutter, Also Freed; Given
Clothes by Consul.

BRITISH REPORT DRAWN

New Orleans, March 26 (A.P.).—The account of the sinking of the British run schooner I'm Alone, given by the captain of the sunken ship, formed the basis today of a report by the British consul at New Orleans to Sir Samel H. ard, British Ambassador at Washington.

In his statement the captain said that at no time was he within the jurisdiction of the United States, and contended that United States Coast Guardsmen had exceeded their right by sinking his ship last Friday in the Gulf of Mexico. He characterized the sinking as "one of the most cowardly acts on the high seas since the submarine warfare."

Guardsmen Stand Ground.
Coast Guardsmen, on the other hand, said they fired at the schooner within the 12-mile limit when the captain refused to let him search the ship for contraband liquor before they chased her out into the Gulf and sunk her with 3,400 cases aboard.

The British consul made no recommendation, confining his report merely to a statement of such facts as he has been able to ascertain. It has not been determined definitely whether the schooner was within United States territorial waters.

Capt. John Thomas Randall, Canadian skipper, and his crew of seven men, were released from custody today pending a hearing before a commissioner which has been postponed until next Tuesday to permit the district attorney to complete his investigation. The captain was released on \$500 bond and his crew on their own recognizance.

The crew were charged with conspiracy to violate the prohibition act and the captain charged additionally with interfering with a customs officer in his boarding duties.

Relies on Sea Law.
Capt. Randall, who was decorated for distinguished service in the British navy during the World War, predicted that the "shipwrecked mariners" act would gain the liberty of the crew.

When released they were taken to a clothing store to obtain an outfit to substitute for the scanty garments in which they swam to safety when their ship dived into the Gulf. This afternoon they attended the funeral of Leon Matagay, the French sailor who drowned before he could be rescued. His body was buried here temporarily pending final arrangements.

Back-ache
Warns of
Kidney Trouble

These dull pains in your back may be more serious than you suspect. Many people make the old mistake of ignoring this symptom of diseased kidneys, this adverse warning of threatening Bright's disease or chronic kidney trouble. Don't neglect nature's warnings or you will be sorry. Remember the condition which is causing your backache and guard against serious developments. Mountain Valley Mineral Water from Hot Springs, Ark., is a safe and effective remedy for all kidney disorders. "Ask your physician." Please see for a case leader. We deliver.

Remove Film From Teeth

Teeth regain dazzling whiteness

The new way dentists urge to restore teeth to
dazzling brilliance—to combat dental troubles

ASK a famous screen star how to keep teeth dazzling white and she will tell you to keep teeth free of film. Ask your dentist how to combat the onset of decay and pyorrhea and he will say, "Remove film from your teeth twice daily."

Today it's known film is the cause of dull, discolored teeth as well as the serious tooth and gum disorders. To remove it scientifically employ the special film-removing dentifrice called Pepsodent.

Film—What it is
Run your tongue across your teeth and you will feel this film. It absorbs stains from food and smoking and turns white teeth dull. It clings to teeth, gets into crevices and stays.

Film hardens into tartar. Germs by the millions breed in it. And germs with tartar are the chief cause of pyorrhea. Film must be removed each day. Ordinary brushing fails to do it successfully. So dentists urge the special film-removing dentifrice called Pepsodent.

First, Pepsodent curdles film, then removes it in gentle safety to enamel. No other way will make teeth as sparkling white. Write for free 10-day supply to The Pepsodent Co., 1104 S. Wabash Ave., Chicago, or ask your druggist for full-size tube. Find out, without delay, how white your teeth really are. You'll be amazed.

Pepsodent

FIRE ABOARD LINER CALLED INCENDIARY

Europa, New 40,000-Ton
Ship, Badly Damaged at
Yard; Must Be Rebuilt.

VESSEL SUNK BY FIREMEN

Hamburg, March 26 (A.P.)—Incendiarists were blamed tonight for fire which partly destroyed the new 40,000-ton North German Lloyd liner Europa early today. The vessel was to have been the queen of the German transatlantic service.

All reports agreed that the blaze originated simultaneously in several different points, but no definite clue has been found by the investigating authorities, officials of the shipbuilders, Blohm & Voss, and of the North German Lloyd Co.

The Blohm & Voss Co. made an official statement that, although they anticipated great loss from the fire, interior decorations of the cabins and saloons had not yet been started and the stern of the vessel, as well as the entire machinery and boiler installations, had been spared.

Amidships, however, both port and starboard, everything had been destroyed and much of the iron framework warped. The enormous volume of water pumped into the blazing ship caused her to sink.

Firemen had to be swung to the decks in iron cages from cranes. The metal plates in the decks were twisted into a hot, shapeless mass. The flames pressed amidships late in the evening.

The North German Lloyd Co. was unable to estimate the extent of the damage.

The company considered loss of the summer and autumn shipping business as much more important than the material damage to the ship. At least four months will be required to rebuild the Europa.

The fire virtually was out by 9 p. m., so that the many fire companies withdrew, leaving only the small brigade of the shipyard to prevent a recurrence during the night.

Auto Hits House After Collision

Auto Plunges Into Porch in Collision; Man Hurt in Second Wreck.

Following a collision with a car driven by Dr. L. Rutkowski, of Emergency Hospital, yesterday, a large automobile driven by James Robinson, of West New York, N. J., crashed through a fence, plowed up a road and crashed into the home of Clement E. Busch, at Elkridge, Md., and demolished the front porch. According to Maryland State police, the two cars collided head-on.

When Rutkowski and Robinson could not agree as to which was at fault, Busch swore out a nonresidence property attachment against the two automobiles and had them detained to insure that his property loss would be compensated. No arrest was made.

Joseph Malloy, of Washington, was seriously injured yesterday morning when the automobile in which he was riding collided with a truck belonging to Tony Paradiso, 1915 Sixth street northwest, at Elvidale. He was brought to Casualty Hospital in a passing automobile and treated for lacerations on the face and probable internal injuries. Malloy was riding in an automobile reported owned by Richard G. Bell, Clifton Terrace South.

Jewish Observance Cooled by Dry Laws

A quiet observance by Jews in Washington of the holiday of Purim, usually the gayest festive day of this race, was reported yesterday because of the increasingly tightening grip of the prohibition law on the Nation's Capital.

This holiday has been observed by the Jews throughout the ages, following a day of fasting, in memory of the day on which the entire Jewish race was saved from slaughter at the hands of Persians. Until last year the holiday was a gay one in Washington. But the 1929 celebration, which was held yesterday, was a quiet one. Rabbi T. T. Loeb told The Washington Post. For the most part the holiday was reduced to the reading of the Book of Esther before small congregations in the various Washington synagogues and the holding of children's parties. Rabbi Loeb reported.

Why not go into business for yourself? Watch the Business Opportunity column in The Post from day to day for a chance to buy into an established business or secure a distributorship for some well-known product.

A TOWN HOUSE

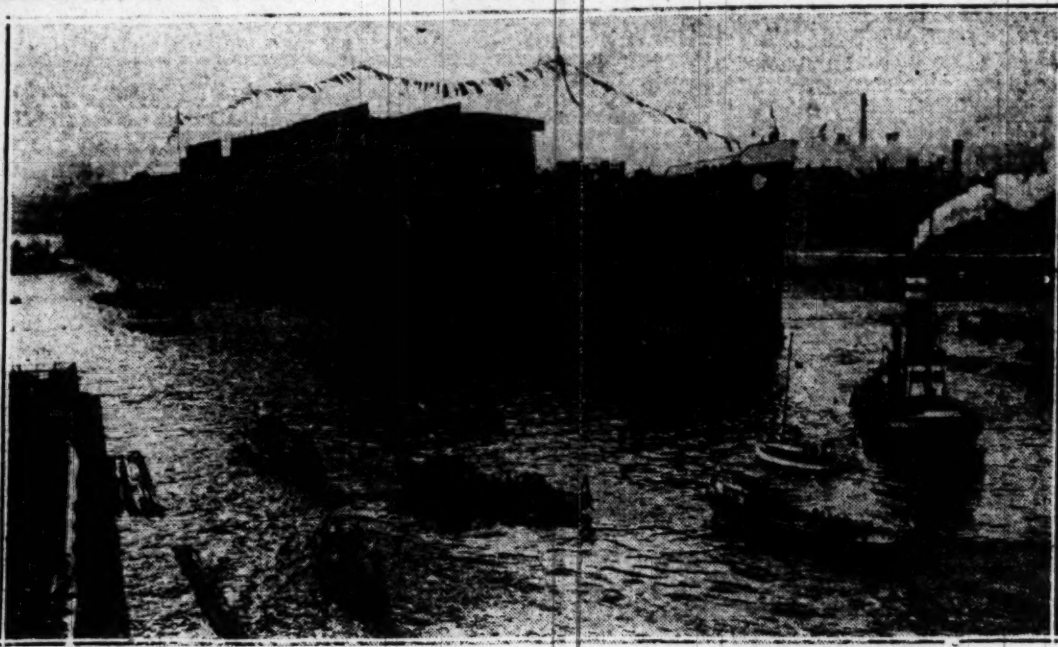

of unusual
distinction

For the family prominent in social and official life who require a home that has, in addition to correct facilities for entertaining, an air of charm and individuality that reflects the good taste and position of the owner.

Occupying one of the few remaining sites in the fashionable Kalorama Heights section, this splendid home boasts an environment second to none in the Nation's Capital. House is detached, of brick construction with stone trim, of outstanding architectural merit in both design and interior arrangement. Eleven rooms, five baths, first floor lavatory, back stairway, oil burner, garage for two cars.

PRATT SLATED AS POLICE HEAD, LEADING LIST OF MANY CHANGES

CONTINUED FROM PAGE 1.

Emmett Doyle is, of course, mentioned for promotion. Capt. Doyle commands the Eighth Precinct, and it is said he is very popular there and has many friends throughout the city, but an analysis of the prognostications and wishes places Bean first among those likely to be named inspector. Bean is a young man, in point of years, and it is possible, of course, that he may step aside in favor of Kelly or Corwell or some one else.

There also will be named a new captain from among the lieutenants, a new lieutenant from among the sergeants, and a sergeant from the privates, but who will be advanced is problematical.

Burke is Advanced.

At the same sitting yesterday at which the Commissioners approved the retirement of Maj. Hesse they also approved the retirement application of Capt. Guy E. Burlingame, commander of the Second Precinct, and approved the promotion of Lieut. Frank S. W. Burke to be captain, to fill the vacancy caused by the retirement of Burlingame.

Detective Sgt. Richard H. Mansfield was promoted to lieutenant. Precinct Detective James E. Kane was promoted to detective sergeant and assigned to the detective bureau. Private James J. Tolson was made precinct detective, and Private Lewis D. Redman was made a sergeant.

These advancements in rank were made to fill the vacancies created by the promotion of Burke. They become effective April 1.

Both Hesse and Burlingame are to retire on full pension—one half their salary—and the approval by the Commissioners of their retirement was expected.

Approval of the retirement of Hesse was made the occasion by the Commissioners to express to the retiring police chief their high opinion of him. "My dear Maj. Hesse," they said in a letter to the retiring chief.

"The Commissioners of the District of Columbia have this day approved a recommendation of the Police and Firemen's Retiring Board that you be retired from the service of the District of Columbia, effective on and after April 1, 1929.

Hesse Qualities Praised.

"This action of the Retiring Board was based upon the condition of your health, and it is with much regret that the Commissioners find it necessary that you sever your connection with the Metropolitan Police Force of the District of Columbia. You have had a long and faithful service in the department both as a civilian and a member of the uniformed force. You have brought to the performance of your duties ability, fidelity and courage. "The position of major and superintendent of police of the District of Columbia is an onerous and exacting one, requiring ability of the highest order, firmness and excessive hours of service. Your devotion to your duty has no doubt brought about the condition of health which requires that you have a complete rest.

"It is the hope of the Commissioners that this rest will enable you to regain your health and that the years of life which stand before you will be filled with a consciousness of a duty well performed and that you carry with you in your retirement the heartfelt good wishes not only of the Commissioners, but of the citizens of Washington whose interests you have so faithfully served."

Hesse is to be the guest of honor at a banquet which will be given him at the Mayflower Hotel Saturday night by the 42 ranking officers of the Police Department. The banquet, at which prominent District officials and business and civic leaders of the city will also be guests, will be held in the Chinese room of the hotel.

Inspector William S. Shelby, assistant superintendent of police, will be toastmaster. There will be brief addresses by prominent persons, but the details of the program have not been arranged. The officers, from lieutenants to the highest officers in the department, three years ago welcomed Hesse as their chief at a banquet in the same hotel where they will bid him an official adieu Saturday night.

Cyclist Reaches City, Pedaling From Brazil

Nearing the end of a bicycle trip of 11,500 miles from Bahia, Brazil, to New York, Rubens Pinheiro Costa reached Washington yesterday afternoon at 2 o'clock. He left almost immediately for Baltimore, pedaling his machine through the rain.

Costa, who is Portuguese and speaks not a word of English, explained that he expects to arrive in New York about April 1, later taking a steamer back to Brazil. He did not know when he would embark. The cyclist left Bahia March 15, 1927.

Legionnaires Hold Joint Meeting With Auxiliary

Department Commander Harlan Wood was the speaker last night at a joint meeting of James Reese Europe Post, No. 5, American Legion, and its Auxiliary. He talked of "What the American Legion Stands For."

The post paid a tribute of silence to the late Marshal Ferdinand Foch, commander of the allied forces in the World War. Seven new members were mustered into the post. They are Emmet Hunt, Joseph C. Burke, George Longstreet, Philip Young, Harvey C. Bean, J. W. Lofton and Ray Jackson.

Prince of Wales Flies Home in Thick Fog

Croydon, England, March 26 (A.P.)—The Prince of Wales arrived safely from Le Bourget at 8 o'clock this evening after attending the funeral of Marshal Foch as representative of King George. "A fog over the English Channel was so thick that the airplane in which he made the homeward flight had to be guided by directional wireless.

DETERDING ARRIVES FOR OIL CONFERENCE

Royal Dutch Shell President
Meets With American
Producers Today.

URGES NEED FOR ACTION

New York, March 26 (A.P.)—Sir Henry Deterding, president of the Royal Dutch Shell Oil Co., arrived in New York today aboard the liner Ile de France to attend a conference tomorrow among the leading oil men of the United States.

The purpose of the meeting is to agree on some means of restriction and conservation of the oil resources of the world. The American producers are to report to the directors of the American Petroleum Institute tomorrow on plans they have formulated to curtail oil production on this continent.

A tentative agreement recently was reached at a meeting in Houston to restrict oil production during 1929 to the 1928 levels, which, if adopted by the institute directors, would mean a reduction of about 200,000 barrels a day. The Pacific Coast regional committee on oil conservation of the institute met tonight in Los Angeles to discuss the problem.

An agreement recently was concluded with the Russians at Moscow, according to the London Daily Mail, which eliminated competition of cheaply marketed oil from the confiscated oil fields of Russia.

Sir Henry said on his arrival today that if the American and continental oil companies could arrive at an agreement the situation would be "neatly in hand." He remarked that there need be no cause for alarm if oil operators in Persia and the Near East stay out.

"Any one who would stay out when such a plan is reached," he continued, however, "should be shot. We have but one supply of petroleum and when that is exhausted there will be no more."

Former Editor Named Hoover Research Aid

(Associated Press.)

French Strother, of Garden City, N. Y., former associate editor of World's Work, has been appointed literary and research assistant at the White House and entered yesterday upon his new duties.

Strother is a native of California and started his literary career as a reporter on the Fresno Republican. He takes over the position held during the Coolidge administration by F. Stewart Crawford and in the Harding administration by Judson C. Walliver. One of Strother's chief duties will be that of research work in obtaining information to be used in the President's speeches and his communications to Congress.

Three Bandits Get \$18.65 From Store. Lewis Landenbaum reported to the police that three colored men who entered his store at 136 V street northwest last night robbed the cash register of \$18.65 while holding him at bay with a pistol.

WALSH FORECASTS U. S. COURT ENTRY

Montana Senator Sees Elec-
tion of Hughes to Tribunal
as New Assurance.

TALKS TO COLLEGE GROUP

Winter Park, Fla., March 26 (A.P.)—Recent events are significant of a more favorable attitude in American sentiment toward the World Court, United States Senator Thomas J. Walsh of Montana, said tonight before the first annual Institute of Statemanship at Rollins College.

He listed the election of Charles Evans Hughes to a seat in the court as one event that had revived interest in the tribunal.

"It may reasonably be expected," said the senator, "that his acceptance of the seat to which he has been called by the well-nigh unanimous vote of the court's electoral college, will contribute materially to allaying the fears so freely expressed in some quarters of dire consequences to our country by its becoming an associate in the court of nations by which the court is maintained."

Senator Walsh said that the inclusion of Elihu Root on the committee of international lawyers at Geneva, to consider revision of the statute of the court, was also noteworthy.

"Senator Root," he continued, "has proposed a solution of the difficulty, and his advances have been met in such a spirit of accommodation that the council on March 8 enlarged the powers and duties of its committee on revision so as to include the task of arranging, if possible, a basis on which the United States might become a signatory to the World Court protocol."

Mr. Root, he said, is "the nestor of the American bar and his presence on the committee ought further to allay partisan or factious opposition to the United States entering the court."

Another circumstance he mentioned as making for good will toward the court was the ratification by the Senate of the Kellogg multilateral treaty for the outlawry of war.

"When nations renounce war as an instrument of national policy," he said, "and solemnly engage not to resort to it for the settlement of differences that may arise among them, it is all but indispensable that they set up machinery by which such may be otherwise adjusted."

"If the United States is to comply with the implications of the Kellogg pact, of which it was the proponent, it must become one of the sponsors for some international tribunal. That means it must join the World Court."

You're missing something if you don't hear "FORHAN'S SONG SHOP" Thursday night at 7. Sta. WEC.

**Have you all
of your own teeth?**

Unless you take preventive measures now, the day is coming when you may know, to your sorrow, that the true meaning of the phrase "artificial denture" is often the extravagant price of self-neglect—false teeth. Here's the reason and the way to help safeguard health against the coming of this day.

Teeth are only as healthy as the gums. And gums, undernourished and under-exercised, soon surrender to dread diseases that ravage health and often destroy teeth. To prevent this, avail yourself of the best care that modern dentistry offers. Place yourself in the hands of your dentist at least twice a year. And brush your gums when you brush your teeth, every morning and night.

But for this purpose—use Forhan's for the Gums... the dentifrice designed to help firm gums and keep them sound, thus protecting them from the attack of disease.

Use Forhan's regularly. You'll be delighted with the way it makes your gums look and feel. In addition, you'll notice that it effectively and safely cleans teeth and helps to protect them from decay. Get a tube of Forhan's—today!

Forhan's for the gums
4 out of 5 after forty and thousands younger pay the extravagant price of neglect.

WIFE IS ARRAIGNED IN "SLEEP SLAYING"

Alleged Killer Is Unmoved as
She Faces Court; Sees
"Other Woman."

TRIAL SET FOR JUNE TERM

Hartford, Conn., March 26 (U.P.).—Events in the alleged "sleep murder" of Harry Adams, 32 years old, Buddhist philosopher and chief of the local Weather Bureau, by his wife, moved swiftly today.

Mrs. Olive Adams, 31 years old, whose reported confession yesterday that she had chloroformed her husband because of jealousy shocked this said New England community, remained a puzzling figure today when she faced Police Judge John L. Bonee, and was held without bail for the June term of Superior Court.

A little woman, weighing less than 100 pounds in her fur-collared coat, she peered at the committee magistrate through horn-rimmed glasses and kept her lips compressed in a fixed smile. Neither she nor her counsel, Joseph C. M. Freedman, reportedly the ablest criminal lawyer in town, spoke a word during the hurried proceedings in the small, crowded courtroom.

"Other Woman" Tells Story.

Over at the State highway commission office, Miss Dorothy Collins, questioned by police as the storm center of the Adams' marital troubles, went about her usual job as stenographer. She had said the police made no attempt to mislead them about her relations with Adams. They identified her as the "Daphne" of a valentine found in Adams' desk, which was decorated with two entwined hearts and another heart at a distance.

Mrs. Adams told the police that her husband, a shy and pleasant-mannered man to the outside world, had brought the Collins girl into her home on numerous occasions and had once ordered his wife to cook supper for the stenographer and himself.

After hearing this, the detectives confronted Mrs. Adams with Miss Collins, expecting some "fireworks," but the two women, who are about the same age, only looked at each other unappily.

Married Commencement Day.

The Adamses were both from the same small New England town—Stoneham, Mass.—and were childhood sweethearts. Mrs. Adams' mother, Mrs. Joseph Adams, filled in some of the chinks in the account of their life. They were graduated from high school with honors in May, 1917, and married the day after commencement.

Harry planned to go to college anyhow, but that was made impossible by the birth of their son, Ananda, who is now 11 years old. Instead the young husband entered the U. S. Weather Bureau service, working first in Boston, then in Cleveland and New Haven before coming here in 1924.

Wife Tells of Slaying.

Mrs. Adams' statement that he had been in the habit of pouring a few drops of chloroform on a handkerchief to induce sleep because he suffered from insomnia was borne out by friends, who said they had protested to Adams that the "scheme was liable to kill him."

In her confession as reported by the police, Mrs. Adams said that for four hours Saturday night she sat by his bed, adding chloroform, drop by drop, to a handkerchief she found spread over his face until her husband no longer breathed.

Morgue Aid's Kin Saved From Death by Poison

Maria Blanche Hefflin, 23-year-old wife of John Hefflin, an assistant to the District morguemaster, last night attempted to take her life in the office of the death house by swallowing a small quantity of poison, police report. The attempt was made in the presence of her husband and followed an argument between the two, police report.

The Fire Rescue Squad and Dr. Leon Gordon, of Emergency Hospital, were summoned and, after first-aid treatment, the young woman was removed to the hospital. Her condition was not held serious, and she later returned to her quarters at the morgue, where the couple make their home.

Trinidad Association Backs W. McK. Clayton

William McK. Clayton was endorsed for membership in the Public Utility Commission by the Trinidad Citizens Association at a meeting last night in the Wheatley School. The association elected George C. Cleary president. A resolution was adopted asking the District Commissioners for better police protection and better lights on the K Street Viaduct and along K Street. Four members of the association were endorsed for the Citizens Advisory Council. They are William A. Roberts, A. Percy Campbell, Andrew S. E. Sheer and Mrs. Fred T. Dubois.

Third British Line Steward Held as Diamond Smuggler

Charles Ward, Arrested on Ship at Quarantine, Confesses
Membership in \$1,000,000 Ring; Will Testify
at Trial of Alleged Leader Today.

New York, March 26 (N.Y.W.S.).—One more setting in the \$1,000,000 diamond smuggling ring, which has resulted in ten arrests to date, with more expected, was polished off today when the arm of the law, reinforced by one of the two foreign buyers of the ring, whose identity is being kept a secret, went down the bay and apprehended Charles Ward, its chief steward, after the Cunard liner Ascania reached Quarantine.

Ward, a thin, red-headed individual, who for a few hundred dollars is alleged to have smuggled in more than \$150,000 worth of gems which went to the ring's principals, at first pleaded his innocence.

But, confronted by the foreign buyer, who it now develops was induced to come to this country by Assistant United States Attorney Sylvester, Ward confessed his part in the plot and is counted on to testify for the Government at the trial of John T. McIntyre, the former city patrolman, which is scheduled to begin tomorrow in Federal court with the eventual unfolding of the entire story of the ring's workings.

The confession of Ward, in which he relates that he smuggled in eight packages of diamonds for which he received \$100 a package while a steward on the Ascania more than a year ago, was followed by the confession of Leslie Metcalfe, who succeeded Ward as steward on that ship and who was arrested Friday.

Metcalfe, with William Ballyn, famed "singing steward" of the Berengaria, and one or two others who are expected to plead guilty at the opening of court tomorrow, will be Government witnesses with Ward, Sylvester said today, when McIntyre, the brains of the outfit, stationed ten years at the Cunard pier, met James S. Steel and Barney Shapiro, formerly in the silk business, have been worth \$150,000.

Metcalfe, who confessed only when told of the confession by Ward, said he had brought in seven packages of diamonds which he delivered to McIntyre. These diamonds are believed to have been worth \$150,000.

SOCIETY EVENTS

CONTINUED FROM PAGE 7.

The wedding of Miss Adams and Mr. Lockwood was to have taken place a month ago, but was postponed because of the illness of Miss Adams.

Mr. Lockwood is a member of the Chevy Chase Club, the Burning Tree Club and the Sons of the Revolution. He also belongs to the Harvard and Embassy Clubs of New York.

Mr. and Mrs. E. L. Montgomery and Mr. and Mrs. Charles Gearing will sail today for Bermuda on the S. S. Fort Victoria.

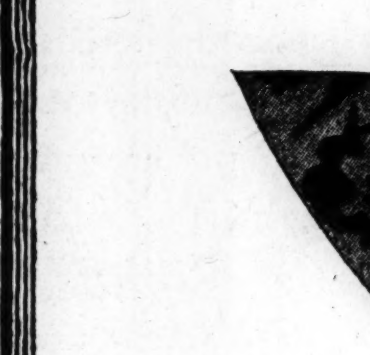

Mrs. N. Chandler Foot, of Cincinnati, Ohio, is at the Carlton for several days, accompanied by her two daughters, Miss Louise K. Foot and Miss Ellen B. Foot, and Miss Bettine Wardwell, of Chappaqua, N. Y.

Mrs. Herbert F. Eggert and Mrs. Henry M. Hewitt will be at the Mayflower until tomorrow. Mrs. Eggert's son, Herbert F. Eggert, Jr., and Malcolm Plum are in Washington on their spring vacation.

Dr. and Mrs. T. M. Bull, of Maugstad, Conn., are at the Grace Hotel for a few days while on a motor trip.

Among other novel features at the annual polo ball, to be given by the War Department Polo Club at the Willard Hotel Monday night, April 1, will be a mock polo game. It will be a forerunner of the polo season which starts at Potomac Park April 20. The game will be refereed by Brig. Gen. E. E. Booth, who officiates at all of the "door" games throughout the season.

Mrs. Edward Clifford has joined the patronesses of Esther Chapter, No. 5, Order of the Eastern Star, for the benefit card party to be given at the Willard Tuesday afternoon, April 2, from 2 to 5 o'clock. Reservations may be made through Mrs. Arthur Fessenden.

There Will Be No Excuse for Your
Not Enjoying

MOTHER WANTONLY SLAIN, SAYS SON, 12

Deputy's Self-Defense Plea
Hit by Story of Boy in
Rum-Raid Death.

PROSECUTOR DEFENDS ACT

CONTINUED FROM PAGE 1.

eral of the deputy sheriffs would have been killed.

"Yes, there will be a grand jury investigation and Smith will be prosecuted if the facts warrant it."

"I can only repeat that the law in Kane County will be enforced and those who resist officers must pay the consequences."

The State's attorney said the officers had gone to the De King home only after liquor had previously been purchased there, with a warrant legally issued. De King had abused the men, he explained, and driven them away with a gun.

The deputies returned with reinforcements and forced their way into the De King home. De King, holding two guns at his side, was struck from behind. According to the State's attorney, the woman leaped to pick up a revolver as he fell and Smith, who had retreated to the door, fired at her.

Smith, at the hospital, refused to make a statement. De King is a laborer and rents the filling station in front of his home to George Stafford, who some time ago was convicted of violation of the dry law and fined.

Attorney Robert A. Milroy today led the verbal attacks against the raiding officers. He told of talking to Mrs. De King over the telephone.

"She said some officers were trying to get into her home," he declared. "She was excited. I didn't hear her for a moment and then there was a loud report like that of a revolver. Milroy said he would await the coroner's verdict before deciding whether to prosecute Deputy Smith."

State's Attorney Carbury took the 12-year-old son to the home today to reenact the shooting, and he said the boy's version bore out the story of the deputy sheriffs.

Husband Denies Warrant.

De King insisted there had been no search warrant involved and that he denied the officers for that reason.

"It repelled the invasion of my home without authority and when so doing was cracked over the head with the butt of a gun," he said today.

"My wife was telephoning to the lawyer when this happened and she yelled, 'You can't do that to my husband,' and started unarmed toward the raiders when she was shot twice in the stomach."

Assistant State's Attorney C. A. Shulla, who ordered the raid, had his own theory after careful investigation today, he said. He declared the woman was shot accidentally by Smith as he fell to the floor with a bullet in his leg from the gun held by the 12-year-old boy.

Attorney Backs Deputy.

Examination of the body, Shulls explained, showed the shots entered on an upward angle.

"De King's action was a willful and wanton disregard of the officers' rights under their search and seizure warrant," he said.

"Our investigation shows that the men had their warrant with them, but that De King chased them away and threatened to kill them if they came back."

"Smith has a reputation for being a

good, level-headed officer, and I am certain that he would not shoot a woman intentionally."

Doran Repeats Methods.

(United Press.)

Prohibition officials yesterday severely criticized methods used by deputy sheriffs in their raid on the home of Joseph De King at Aurora, Ill., yesterday. At the same time, dry organization heads defended the action.

Prohibition Commissioner Doran, who has refused to furnish Federal agents with gas bombs, said he could not condone use of them by raiding squads.

"Any one in my organization who adopted such methods would hear from me," he said.

The secretary of the Methodist Episcopal Board, Dr. Clarence True Wilson, said he found nothing to condemn in the United Press account of the Aurora raid.

Senator Jones, of Washington, author of the new law fixing the maximum penalty for prohibition law violation at \$10,000 fine, five-year imprisonment, or both, refused to comment further than to say he could not believe "any one would shoot a woman except in self-defense."

THE ONCE OVER

By H. I. PHILLIPS

ANOTHER BLOW TO PEACE.

William Fox is out to kill sleeping in moving picture houses. His company has definitely abandoned the silent movies and will from now on produce only pictures no customer can avoid merely by closing his eyes.

The afternoon siesta and the evening nap, which had become American institutions in the picture houses of the land, will be things of the past, if Mr. Fox has his way. He is for keeping the customers awake through the entire program, the whippet races, ship launchings and corner-stone layings included.

Mr. Fox's motto is: "The smile with the VOICE wins!" His favorite quotation is, "Friends, Romans, Countrymen, lend me your ears!"

He thinks the time has come when customers should be made to sit up throughout the screen entertainment, and that the day when tired business men, tongue-lashed husbands and weary workers could slide into a dark picture house for a nice, quiet snooze has come to an end.

"The picture houses, up to the introduction of sound pictures, had become havens of rest for the weary. You could always get a good sleep for from 10 to 75 cents, with no risk of disturbance unless there was a woken scene."

How to break this up had been a matter of conference between the picture men and the hotel interests for years, but no solution was found until the "yellies" were perfected. Since the screen entertainments "with sound" have been introduced there has been a gradual falling off of patronage by people who merely wanted to go to bed for a few hours. A few who were not easily disturbed have continued to come in, however, and it remained for Mr. Fox to come forth and sweep them out at one stroke.

good, level-headed officer, and I am certain that he would not shoot a woman intentionally."

Doran Repeats Methods.

(United Press.)

Prohibition officials yesterday severely criticized methods used by deputy sheriffs in their raid on the home of Joseph De King at Aurora, Ill., yesterday. At the same time, dry organization heads defended the action.

HOUGHTON SCOFFS AT FEARS OF WAR

Distrust Rumor Between U. S.
and Britain Is Laid to
Two "Hobgoblins."

PEACE CALLED DURABLE

London, March 26 (N.Y. W.S.S.).—Ambassador Houghton, in a speech at a farewell dinner given here tonight by the Pilgrims Society, where he discussed Anglo-American relations, "confessed frankly to seeing only one reason for distrust between the two countries."

"That," he explained, "is the existence of two mental hobgoblins. One of these hobgoblins appears from time to time in America to assure us that Britain is a predatory power, cynically careless of right and wrong, indifferent to the interests of others, greedy, cunning and waiting only for a favorable opportunity to strike us down."

"The other appears from time to time in Britain to assure us that America becomes more and more conscious of her gigantic strength she will inevitably become imperialistic, and ruthlessly and brutally seeking to exploit others. Will use that strength merely to play the bully and will become a danger and a menace to the peoples of the world."

Hobgoblins Called False.

"If these two hobgoblins speak truth the future is dark indeed. If the British people and the American people are fairly represented in their character and aspirations by what those two hobgoblins tell us, then serious trouble must be expected, and we would both do well to prepare again for the hell of war. But these two hobgoblins don't speak truth. The description is false. The peoples are wholly different from that picture. Isn't it about time that we recognize that fact fully and consciously and turn definitely away from such fantastic views of our true relations to each other?"

"Durable and unbreakable peace exists even now between the British and the American peoples if they will but recognize the fact."

Earlier in his speech Ambassador Houghton, referring to various differences between the two countries, declared that it was natural and inevitable that such differences should arise from time to time, but that fact was no cause for alarm "since no two nations have identical interests, and relations between them give rise continually to differences of one sort or another which continually require adjustment."

Differences Prove Difference.

"Even so," he said, "those nations continue to encounter each other, to trade with one another, to profit from each other, and because they are in fact mutually and increasingly dependent on each other their difficulties ultimately find adjustment. The fact that differences between them exist is that we must expect these differences. That is the normal condition of international life. It is nothing to exaggerate and, above all, it is nothing to deplore."

"I suggest that it puts a certain strain on the adjustment of these difficulties if people on both sides of the water tend to reason that such differences ought not to be and that their existence is somehow abnormal. If any one is anxious about Anglo-American relations because there are unresolvable problems between the two peoples I have no words to comfort him. There will never be a time when such problems don't exist. If he is alarmed by the loose talk he hears about the danger incident to such problems I can only say to him that the world has become astonishingly safe for loose talk. It's one of the luxuries of security."

Defends Public Airing.

Previously in his speech the ambassador had defended the public discussion of such differences, declaring, "when I turn more particularly to Anglo-American relations I am made conscious that these are days of open diplomacy. We are all diplomats and we are all interested, and our common language serves to make discussion between us easy and general. I don't regret this. On the contrary, I think that such discussion is of the highest value. Washing linen in public may not be an edifying spectacle, but at least it has the merit of leaving nothing hidden to be washed later, perhaps in blood."

3 SOUTHERN G. O. P. MACHINES ARE SCRAPPED BY PRESIDENT

CONTINUED FROM PAGE 1.

national committee during the campaign, is not a party to the advisory council idea and has no intention of setting one up. It remains to be seen how things will work out in that State.

Any number of inquiries have been made of Mr. Hoover since he assumed office as to the Southern situation. So yesterday he took the bit in his teeth and made an answer which left nothing to be guessed at. It said:

"It has been the aspiration of Republican Presidents over many years to build up sound Republican organizations in the Southern States of such character as would command itself to the citizens of those States."

"This aspiration has arisen out of no narrow sense of partisanship, but from the conviction shared in equally by the leaders of all parties that the basis of sound government must rest upon strong two-party representation and organization; that the voice of all States in the councils of the Government can be assured by no other means; that the welfare of the Nation at large requires the breaking down of sectionalism in politics; that the public service can be assured only by responsible organization. Furthermore, it has been the belief of these leaders, whose views I share, that the building up of such organization must in every conception of our foundations of local self-government evolve from those States themselves."

Vigorous Party Built.

"Republican leadership in the border States and in Virginia and North Carolina has long since built up vigorous party organization which assures Republican representation in the Congress from those States."

"In other States, including Alabama, Arkansas, Louisiana, Texas and Florida the Republican leadership has in recent times shown increasing strength and is now rendering able and conscientious service in maintaining wholesome organization under whose advice the appointments to public office have steadily improved. It has been the States with increased confidence in the party. I highly approve and welcome the movement of the leaders of Texas, Alabama, Florida and other States to broaden the basis of party organization by the establishment of advisory committees of the highest type of citizenship to deal with administrative questions, and who will also cooperate with independent Democrats. This movement is a step in the right direction."

F. H. Ecker Named Metropolitan Head

Insurance Company's Vice
President Successor of
Late Haley Fiske.

New York, March 26 (A.P.).—Fredrick H. Ecker, first vice president of the Metropolitan Life Insurance Co., today was elected president to succeed the late Haley Fiske.

Robert Lynn Cox, second vice president of the company and president of the New Jersey State Board of Education, was made vice president to fill the vacancy left by Mr. Ecker's elevation.

Mr. Ecker's election was the climax of a 40-year association with the Metropolitan, which began in a \$4-a-week clerkship. He is a director of the Cincinnati, Indianapolis & Western Railway, Western Pacific Railway, Wheeling & Lake Erie Railway, American Express Co., United & Foreign Securities Corporation, Finance Co. of Great Britain & America, Ltd., and the New York Casualty Co. and trustee and vice president of the Union Dime Savings Bank.

He was born in Phoenix, N. Y., August 30, 1867, the descendant of one of Napoleon's generals and the son of a Civil War veteran.

Mr. Ecker is a handy man to do the little odd jobs you've been putting off doing from day to day. You'll find his address and telephone number among today's advertisements in the "Personal" classification of The Post.

Postmaster General's Wife Has Preference for Green

Mrs. W. F. Brown Selects
Artistic Gowns, Though
Indifferent to Fashion.

By EMMA PERLEY LINCOLN.

Loyalty is one of the outstanding characteristics of Mrs. Walter Folger Brown, wife of the newly appointed Postmaster General. This is strongly indicated in her clothes preferences.

Mrs. Brown says that when she is fond of a gown, she likes it and enjoys wearing it as long as there is a shred of it left, and then regrets discarding it as she would a friend.

Green is her favorite color. When asked what particular shade of green she fancied, she stated that any tint, just so it was green, pleased her immensely. Consequently all her clothes are chosen in this hue. Green tweeds and jerseys for morning and regular wear, with small felt hats to match, are worn with footwear and gloves in tans and browns. Mrs. Brown's fondness for green is expressed in her evening gowns too, with tulle and chiffons preferred. She has a pale green moire model for evening, with shoes made in the same fabric.

Green is carried out in the decorations of her home, too, and even Mr. Brown has such a fondness for the color that their cars, boats and every-

Underwood & Underwood.
MRS. WALTER FOLGER BROWN

thing they possess shows this preferred color somewhere about it.

"Of course," said Mrs. Brown, "every one has some color to which they react pleasantly, and green happens to be ours." Their mutual liking should be in itself a perfect barometer for harmony.

"I am very glad to see that fashion has reverted to the feminine in designs for this spring and summer," Mrs. Brown said. "I have always preferred feminine-looking clothes and have interpreted the styles of the past several seasons in that manner in so far as possible."

With all these decided ideas, Mrs. Brown still insists that she is indifferent to the matter of clothes and the thing called "fashion." Her well-groomed appearance therefore tends to show that her selections are the result of an innate artistry.

American, from London, due at pier 54, North River, Sunday.

Baltic, from Liverpool, due at pier 54, North River, Monday.

Tariff Committee Will Meet Today

Republican Subcommittees
Agree on Three Sched-
ules of New Act.

(Associated Press.)

Republican subcommittees of the House ways and means committee, now engaged in writing amendments to the existing tariff law, have completed preliminary revision of three of the fifteen rate schedules in the act—those embracing sugar and its by-products, metals, and articles, earthenware and glassware.

The full Republican membership of the committee will meet today to go over the subcommittee work. This procedure will be followed as the work of the subcommittees progress, and all schedules will be passed upon again by the fifteen majority members before the bill is drafted.

Members of the three subcommittees would not discuss the rate changes they had worked out. Chairman Hawley has announced that none of the new duties or other changes in the law would be made public until the measure was completed and introduced at the special session around April 26.

... THERE IS NO OTHER GAS LIKE THIS ...

YOU CANNOT DUPLICATE—
AT ANY PRICE—
the unique value of
KOOLMOTOR
The original green gas

Extra Quality
Extra Value

Koolmotor—the original high-test, anti-knock green gas—is a pure petroleum product. It is tinted green for your protection. Koolmotor is a real super-gas and, like any other product of superlative quality, it commands a premium price. For the sake of your own comfort as well as for the benefit of your engine, beware of imitations.

You cannot duplicate the unique value of Koolmotor by using any other gasoline that is colored and described as "high-test" and "anti-knock."

That fact is proved by laboratory tests and by the actual experience of day-in-and-day-out driving. "High-test" and "anti-knock" are much more than mere advertising phrases when applied to Koolmotor, the original green gas that was introduced with great success more than a year ago.

The special distillation and processing of Koolmotor result in greater power, more mileage and freedom from driving troubles.

Try Koolmotor the next time you fill your tank. After that only Koolmotor will satisfy you. You will be willing—as many another motorist is these days—to drive miles out of your way, if need be, to reach a Koolmotor filling station.

Skin Troubles—
pimples, boils, eczema and yellow complexion are usually but symptoms of a deeper, a more dangerous trouble—a lack of the normal count of red-cells in the blood.

When you take S.S.S. to get rid of these outside blemishes, you are building up the system to ward off the graver diseases of which these blemishes are Nature's warning.

No one can afford pimples

A clear, smooth, lovely skin speaks of rich, red blood within. It is Nature's outward reflection of internal healthfulness.

HAPPY is the woman who has a clear, smooth, flawless skin! Both men and women admire such captivating loveliness.

First impressions cannot be good without a clear skin—first impressions are quickly made and are not soon forgotten. Old friends may excuse pimples and secretly sympathize but new acquaintances may not be so charitable. Skin blemishes are not inviting. Neither can they be covered up. They embarrass. Hold people back. Steal away joy and happiness.

A lovely—clear skin—is within the reach of all. To those who have lost it, hope is offered. You, too, may have a beautiful skin, rose-petal in texture, pretty as a picture and without a single pimple.

The way to the Skin is through the Blood

Strong, healthy blood nourishes the body and fights against infection and disease.

Without plenty of rich, red blood, there could be no strong, sturdy, powerful men, or beautiful, healthy women.

Many thousands have regained their strength and charm by taking S.S.S. It is Nature's own blood tonic for raising the body's power of resistance to disease, improving the appetite, building firm flesh, and clearing the skin. S.S.S. promotes constructive metabolism (healthy body building). It increases the number of red-blood-cells.

S.S.S. is made from fresh vegetable drugs and has a successful record of over 100 years back of it.

All good drug stores sell S.S.S. in two sizes. Ask for the larger size. It is more economical.

Final Bridge Plays Are Elucidated

Canadians Are Paired
With Whitehead and
Work in 20th Game in
Series Which Are Con-
cluded for the Season.

The twentieth and last of this season's radio bridge games went on the air yesterday from Station WRC, to the regret of the thousands of listeners-in who have received pleasure and valuable bridge instruction from this weekly game-lesson given by the country's greatest bridge experts.

In this final game of the series two of Canada's leading players, William J. Wall, of Ottawa, and J. H. Landerskin, of Toronto, were paired against Mr. Whitehead and Mr. Work.

The cards were: Mr. Work, South: Spades, K, 9, 4; Hearts, A, K; Diamonds, 7, 6, 5, 4; Clubs, A, Q, 8. Mr. Wall, West: Spades, Q, 6, 5; Hearts, 8, 6; Diamonds, A, Q, 8; Clubs, 9, 8, 7. Mr. Whitehead, North: Spades, A, J; Hearts, J, 10, 7, 5, 4, 3, 2; Diamonds, J, Clubs, J, 4, 3. Mr. Landerskin, East: Spades, 10, 8, 7, 3, 2; Hearts, Q; Diamonds, K, 10, 8, 4; Clubs, K, 10, 9.

Mr. Work, as South, the Dealer, with three suits stopped, bid one No Trump. Mr. Wall, in the West, passed. Mr. Whitehead, North, with a seven-card major and a singleton, properly took the No Trump bid by a bid of two Hearts. This bid of two of a major suit of course invited South to rebid his No Trump if he held no suit to bid; but Mr. Landerskin, East, who had South done so, North would have been justified in bidding three Hearts. His holding of seven cards of the suit—distinctly more than the normal—was not to be expected by his partner, and any denial bid the latter might make could not be based upon the supposition of such length.

However, Mr. Work, South, after a pass by Mr. Landerskin, East, allowed the two-Heart bid and let the game. Mr. Work had only two Hearts, they were Ace-King, and the balance of his No Trump not being particularly dependable, he preferred the suit bid.

Mr. Wall, West, also passed, and North played the hand for two Hearts. Mr. Landerskin, East, opened the 8 of Spades, the fourth-best card of his long Spade suit—a lead decidedly preferable to a blind lead away from a King suit. From Mr. Wall's hand, which held the King of Spades, Mr. Whitehead played the 4 of Spades. Mr. Wall, West, played the Queen, and Declarer the Ace.

Mr. Whitehead, North, then led the 6 of Spades, having in mind the later discard of his long Diamond on Dummy's King of Spades. Mr. Landerskin played the 2 of Spades, thus showing that he originally held a five-card suit. Dummy played the 9 and Mr. Wall the 5.

Mr. Whitehead then led the 2 of Hearts, Mr. Landerskin followed with the Queen, Dummy won with the Ace, and Mr. Wall played the 8 of Hearts, led the King of Spades. Mr. Wall played the 8 of Diamonds, and Mr. Landerskin played the 7 of Spades.

Dummy continued with the 2 of Diamonds; Mr. Wall played the Ace; Declarer trumped with the 8 of Hearts; Mr. Landerskin followed suit with the 4 of Diamonds, and Mr. Wall the 6 of Diamonds.

Declarer led the 4 of Hearts; Mr. Landerskin discarded the 8 of Spades; Dummy won with the King of Hearts, and Mr. Wall played the 6 of Hearts, which Declarer trumped with the 8 of Hearts.

Declarer followed suit with the 3 of Diamonds, and Mr. Landerskin with the 8. Declarer led the Jack of Hearts; Mr. Landerskin discarded the 10 of Spades; Dummy discarded the 6 of Diamonds, which Mr. Wall played the last trump, the 10 of Hearts. Mr. Landerskin, East, discarded his 10 of Clubs, in order to retain his high Diamond over Dummy's 8. Dummy discarded the 9 of Diamonds, and Mr. Wall the 7 of Clubs.

Declarer next led his low Club, the 4; Mr. Landerskin played the King; Dummy the Ace; Mr. Wall the 8. Dummy led the 8 of Clubs, which, of course, was won by Declarer's Jack. Declarer, therefore, by squeezing East in the end-play, made a Grand Slam on the hand, scoring 56 points in the trick score, and in the honor score 40 for four honors divided, and 100 for the Grand Slam.

The Contract bidding of this hand would be much more complicated than the bidding at auction. South's opening bid of one No Trump would be the same—he would be just short of the strength requisite for a bid of two. After the pass North, of course, would bid Hearts—but in Contract there would be quite a question as to how many. Would he play the 2 Hearts, North hand would bid two, some three, and some four.

As Mr. Work analyzed the hand, North, sitting opposite a No Trump, with seven cards of a major suit headed by Jack-Ten, and with the other strength, as has been pointed out, determining at once that he wished to play a game contract with Hearts the trump. Bidding two Hearts might readily be followed by a pass by the No Trump and a consequent failure to reach the game contract. Therefore, the situation called for a bid of three-Heart bid by North, which would call upon South for whichever game bid he prefers—three No Trump or four Hearts. As a matter of fact, South bid the three No Trumps, North would have to go to four Hearts, because, as has been pointed out, the Auction bidding, South's No Trump selection would not be made with the knowledge of North's abnormal length in Hearts.

The play in the two games would be the same. Of course, with the cards exposed, East would not lead a Spade. His best lead would be a Diamond, thus winning a Diamond trick before North could discard his losing singleton Jack. However, the Radio Game was not played upon the double-dummy basis of all the cards being exposed, and for an East who did not know the location of the cards he had not seen, the proper lead would be the fourth-best Spade.

**Scotch Girl, Youngest
In Parliament, Seated**

London, March 26 (A.P.).—The youngest member of Parliament of either sex took her place in the historic House of Commons today. She is Miss Jennie Lee, 24-year-old girl, who won the North Lanark constituency for the Labor party last week.

The rose-cheeked Scots lassie with shining brown eyes, wearing a brown coat and skirt and no hat, was introduced by the Labor leader, Robert Smillie, and James Maxton. She was given a warm welcome, the Labor members giving a prolonged demonstration of sympathy.

COMMUNITY CHEST
DRIVE COST \$41,938Preliminary Expenses Bring
Total to 3.1 Per Cent
of Sum Raised.

OFFICIAL TO GIVE REPORT

The Community Chest campaign cost only 2.7 per cent of the amount subscribed, according to a report which will be made by Rudolph J. Joseph, treasurer, at the annual meeting and election of officers of the Community Chest trustees at 4 p. m. today in the United States Chamber of Commerce.

Campaign subscriptions to date are \$1,501,560.57, aside from the surplus of the inaugural charity ball, which has not yet been received. The campaign expenses were \$41,938.23. To the actual campaign expense was added \$6,185.46, which was borrowed before January to cover the cost of preliminary organization and preparation in the latter months of 1928. The cost of preparation and of the campaign was 3.1 per cent.

It is estimated that at the former average cost of money raising for the separate organizations, members of the Community Chest, was at least 18 per cent.

The estimated expense for the remainder of the year is 2.9 per cent, bringing the expenses anticipated for the year to 6 per cent of the sum subscribed.

The year-round costs which will be necessary include the expense of sending acknowledgment and statements to contributors, keeping lists of givers and prospective contributors up to date, posting payments to record cards as received, advice to member agencies on accounting and other problems, year-round information to contributors and citizens regarding the way their money is being spent, checking financial requests of member organizations and making payments to them in accordance with their budgets, the study of budgets and preparation of budgets for the 1930 campaign and year-round preparation for that campaign.

The analysis of pledges received during and after the campaign by divisions, both in number and amounts, follows: Special gifts unit, 1,191 pledges, \$765,261.25; metropolitan unit, \$9,109,480,350.20; group solicitation unit, 21,984 pledges, \$160,905.20; national corporation unit, 42 pledges, \$2,124.20; colored coordination unit, 12 pledges, \$268.18; Government unit, 8,277 pledges, \$56,593.47; and schools unit, 144 pledges, \$788.00.

YOUR BOY AND
YOUR GIRLBy ARTHUR DEAN, SO. D.
The Parent Counselor.

"Good Morning, My Dear Children!"

WHENEVER that cheery greeting bubbles out of the loud speaker it can mean only one thing—Walter Damroch.

And to two or three million school children Walter Damroch means half an hour of real music, not the sort that is thrust upon them in many a home, or the kind that has to be practiced with scales and exercises. No, indeed! Why, he won't even make them sing a single do-re-mi-fa-sol. There will just be Mr. Damroch and his orchestra.

To be sure he does some explaining. But that cordial and strikingly sympathetic voice holds our interest and makes us feel he is so absolutely human and helpful that he leads us anywhere and we'd gladly follow. He never gives us long terms which we cannot understand. Instead he tells about music in terms of soldiers, generals, horses, animals, ships and fairies.

We hear him tell the children about those funny creatures called fauns, who look like mischievous little boys only that they have goat's ears and hoofs. Then he shows them how the music which he is about to play, represents these little fauns as marching along and playing their pan-pipes. The music starts, and sure enough, the children see just what he means. There is the thump, thump of the marching feet and every so often the shrill squeal from their little pipes.

The music becomes something more than just tunes and melodies. The children hear the pattering raindrops in one piece and the stomping elephants in another. They hear the howl of the donkey, the galloping of the horses, the dancing of the fairies or the conversation between the Beauty and the Beast.

Gradually the children realize that music says so many different things; some happy and gay and some sad and sorrowful, some that is peaceful and quiet and some furious and angry.

The children know, too, that Mr. Damroch will tell them interesting things about the instruments of his orchestra, his musical family, as he calls them. He will show them how the violin, viola, cello and double bass all belong to the same group, but that the violin is small and goes way up high, but that the bass is big and goes way down into the cellar. He will show them how the flutes and clarinets can sing a beautiful tune or get frisky and chase each other up and down the scale like squirrels running up and down a tree. They hear how the kettle drum sounds like the rumble of distant thunder and how the tom-tom and tuba can make the loudest notes in the orchestra, and all of it fascinates them. These are the things which Walter

exchange. But then what's the use of bothering about it. If I were your mother, I would let you do it.

Mae—You will never go wrong if you associate with boys who do not drink, who are well-mannered and who want to do something else besides "reck."

Beth—How unfortunate that you should marry at this early age and the only knowledge you have of life has been learned from girl associates! How does it happen that you missed my list of sex books?

Passing on the Street.

Should a girl act indifferent, angry, nonchalant or friendly when she meets a boy on the street who has failed to keep a date with her?

Wondering.

Answer—Nonchalant. Keeping one guessing is often adequate punishment. (Copyright, 1928.)

James to Inspect Housing Conditions.

Representative W. Frank James, of the House military affairs committee, started yesterday on a tour of various Army posts to investigate housing conditions, and obtain first-hand information regarding pay and promotion from Army personnel. Mitchell Field, N. Y., is the first stop of Representative James' itinerary.

OUR CONVERSATION CORNER.

Pair Exchanging.

Mother thinks it wrong for school girls to wear each other's dresses. She used to let me do it, but now she has changed her mind. I don't see anything wrong in that, and want your opinion.

MISS THIRTEEN.

Answer—I suppose, my young friend, in the State of Utopia that a dress which is considered becoming for one girl will not do at all for another. And if each of you girls has a dress which suits your style, I don't see how you can

JUST FOLKS

By EDGAR A. GUMST.
THE CADDIE EXPLAINS HIS ABSENCE.

It's dis way, boss, yo' see—Yesterday yo' looked fo' me. An' Ah wasn't heah 'n' drag. Round dis co'se yo' gollin' bag. No suh! Ah wasn't heah. 'Case why? Ah ain't gwine t' tell no lie! Mistah Eddie, t' yo' face. Man t' man Ah'll 'plain my case. Ah was comin' heah t' be waitin' fo' yo' on de tee. An' Ah staid on mah way. As Ah promised yesterday. But a curious thing occurred. In mah pocket seems Ah heahd something 'jiglin', soft an' low. Sweeter dan de hiddle bow. Or de song dem angels sang. Or de church bells when dey ring. Heah dat tinkin' go de street. Lak when silver dollars meet. An' Ah swar dat soothin' sound. Stopped mah feet an' turned me round. Singin', croonin', soft an' low. We le silver, good to spend! "Brudder, whar yo' gwine t' go? Yo' gwine out t' wo'k today? Toite dat bag dat dreary way? Don't yo' know whar dis sound means? Yo' got money in yo' jeans! Put yo' hand in heah an' feel! We ain't poor; we ain't steel. We le silver, good to spend! We're de poor man's truest friend! We want out o' heah, we do. An' we'll burn a hole right through de yab pocket if yo' say Yo' is gwine t' work today. Yes, suh, boss, Ah heah dat song. Coatin', teen' me 'n' wrong. An' Ah couldn't wo'k, yo' see. Wid dat money temptin' me.

Rate Suspension
On Coal Revoked

Interstate Board Nullifies
Former Ruling Affecting
Fuel to Capital.

The Interstate Commerce Commission yesterday revoked the suspension of the \$3.13 a ton coal rate from the Virginia, West Virginia and Kentucky coal fields to Washington and nearby terminals in Maryland and Virginia, which rate was set by the commission July last, but suspended following protest by local trade bodies and Southern coal operators.

Washington bituminous coal consumers saved approximately \$800,000 as a result of suspension of the rate, local trade officials estimated.

The rate was raised last July from a base of \$2.84 per ton for shipments over the Chesapeake & Ohio, Norfolk & Western and Virginia Railway. Owners of the fields affected declared the increase would affect their revenues and local consumers contended that the Pennsylvania will remain at \$2.71 per ton, it was announced.

BOND SALES ON NEW YORK EXCHANGE

Many Issues Drop to New Low Levels; Convertibles Chief Sufferers.

FEDERAL GROUP YIELDS

New York, March 26 (A.P.)—Bonds were dumped overboard today in the heaviest trading day in the market since last June and more than 75 foreign and domestic issues fell in many cases to their lowest level for all time. The Associated Press combined average for 40 bonds was at their lowest point in three years.

The widest breaks were in the convertibles, reflecting the pessimism of the stock market. High-grade issues were well represented in the decline. As the rate for call money was marked up to 20 per cent, dealers were demanding 8 1/2 per cent for time loans.

Sales totaled \$14,694,000, the heaviest turnover since June 1928, when the total was \$16,031,000.

Speculative Issues Yield.

Outside of International Telephone convertible 4 1/2s, which wound up the day with a net gain of a point at 117 1/2 after trading to 119 and finishing at 114 1/2, all the speculative issues closed behind minus signs. Public service of New Jersey 4 1/2s, which had been at a new low of 172, compared to their recent high of 206, and the Van Sweringen's Allegheny Corporation 5s at one time got down to 110 and finished at 90 1/2 for a fractional loss. Shortly after their admission to trading this year these bonds had been at 110 1/2.

American International 5 1/2s fell more than two points to a new low at 101. A loss of four points at the close was tallied by Anaconda Copper 7 1/2s, which fluctuated from a high for the day of 240 to a low at 227 and finished at 230.

In the industrial group, U. S. Steel 4 1/2s, which recently preceded a merger announcement with an advance to 120, slipped down 3 points to a new low for the year at 110. Bethlehem Steel refunding 4 1/2s, which had been at 101, by collateral 5s of American Telephone, which took Wall Street by surprise today with announcement of a \$225,000 bond offering, its first major financing of this kind since 1925.

This step follows action by such companies as U. S. Steel and Anaconda Copper to retire all bonds through stock offerings. Postal Telegraph 5s also were at a new low.

Stump in the utilities was marked by a drop of 2 points to a new low at 101, by collateral 5s of American Telephone, which took Wall Street by surprise today with announcement of a \$225,000 bond offering, its first major financing of this kind since 1925.

All sections of the foreign list were under pressure. Pirelli 7s dropped 2 points.

United States Government securities all turned downward after an early burst of strength. The losses were the first since Secretary Mellon's pronouncement that now is a good time to buy bonds.

Chicago Grain.

Chicago, March 26 (A.P.)—Grain futures trading today was characterized by a sharp decline in prices for wheat, corn and soybeans. The market was heavily influenced by reports of a large export order for wheat to the United Kingdom, which caused a temporary rally in wheat prices. However, the overall trend was downward, with wheat closing at a new low for the month. Corn and soybean prices also fell, with corn ending the day with a loss of 1/4 cent and soybeans down 1/2 cent.

Wall Street Briefs

New York, March 26 (A.P.)—Steel production was reported today to be virtually at capacity in various steel plants following a fractional increase in operations. The industry as a whole is at 95 per cent of capacity and is expected to reach 100 per cent by the end of the week.

A \$50,000,000 aircraft finance corporation known as the Aircraft Finance Corporation of America has been formed in Los Angeles with A. O. Hudson as president. It plans to finance the purchase of airplanes for the distributor and individual buyer.

Baldwin Locomotive Works will enter April with more business on its books than at any corresponding period since 1926, President S. M. Vauldin said. More orders have been received this month than in any 1928 month.

Common stockholders of the Arkansas Natural Gas Corporation, subsidiary of the Cities Service of the company, are to be paid a dividend of 10 cents per share for every four shares held. The proceeds will be used for expansion, property improvement and other corporate purposes.

The 1919 maintenance and improvement program of the Minneapolis & St. Paul & Sault Ste. Marie Railway Co. has been approved by the Interstate Commerce Commission. The program calls for an expenditure of \$1,500,000 for rolling stock and other equipment.

Production of pig iron last year, as compared by the American Iron and Steel Institute, increased 1,545,416 tons over 1927 to 37,401,648 tons. Pennsylvania's production of pig iron last year, as compared by the American Iron and Steel Institute, increased 1,545,416 tons over 1927 to 37,401,648 tons.

The American Iron and Steel Institute reports production of rails decreased last year to 2,647,493 gross tons, compared with 2,806,486 in 1927.

Pig iron in the Cleveland district has been sold at \$18 a ton, an advance of 50 cents.

The North American Edison Co., intermediary holding company for the North American Edison Co., with properties in the United States and Canada, has announced that it will be expanded to include the production of electric power in the United States and Canada.

City and County of Dallas have approved a plan to issue \$2,000,000 of bonds to finance the construction of a new city hall and other public buildings.

New York, March 26 (A.P.)—WHEAT—Spot wheat prices were steady today, with a slight advance in the price of No. 2 hard winter wheat. The price of No. 2 hard winter wheat was 90 cents per bushel.

NEW YORK GRAIN.

New York, March 26 (A.P.)—WHEAT—Spot wheat prices were steady today, with a slight advance in the price of No. 2 hard winter wheat. The price of No. 2 hard winter wheat was 90 cents per bushel.

BALTIMORE SECURITIES.

Baltimore, March 26 (A.P.)—The Baltimore Stock Exchange reported a steady day for trading in securities. The price of U. S. Government bonds was 100 1/2, and the price of common stocks was 100.

CHICAGO STOCKS.

Chicago, March 26 (A.P.)—The Chicago Stock Exchange reported a steady day for trading in securities. The price of U. S. Government bonds was 100 1/2, and the price of common stocks was 100.

Curb Review

New York, March 26 (A.P.)—Curb market stocks today duplicated the wide fluctuations of the "big board" and many of the early declines were either wiped out or refused to fractions. Aviation and chain store stocks suffered the widest, and the utilities, which were under pressure practically all day, closed at a net loss.

Ford of Canada, which recently sold to 1,150 on announcement of 20 for one stock split-up, sank to 98 and rebounded to close at 99 1/2 for a net loss of 21 points. Procter & Gamble broke 20 points, Libby Owen Sheet Glass 10, and American International 5 1/2s.

Metropolitan Chain Stores was the outstanding weak spot of that group, dropping 6 points to 100. The stock of the chain store was down nearly 7 points. Polk and Sperry's Withington was down 5 points, and Grigsby-Grunow nearly 10. Goldman Sachs finished with a fractional loss, and Fox Theatre a fractional gain.

Mining shares closed under minus signs. Newmont was down nearly 2 points. Losses in the oils were held mostly to fractions.

COTTONSEED OIL MARKET.

New York, March 26 (A.P.)—COTTONSEED OIL—The cottonseed oil market was steady today, with a slight advance in the price of No. 1 cottonseed oil. The price of No. 1 cottonseed oil was 11 1/2 cents per pound.

FLOUR QUOTATIONS.

Unchanged, unbleached, 35.50. Flour quotations were steady today, with a slight advance in the price of No. 1 flour. The price of No. 1 flour was 35.50 cents per bushel.

A Complete Investment Service.

Investment service provided by the Metropolitan Bank, 15th St., opposite U. S. Treasury.

FOREIGN BONDS.

French 5s, 100 1/2. Foreign bonds were steady today, with a slight advance in the price of French 5s. The price of French 5s was 100 1/2.

TREASURY CERTIFICATES.

U. S. Government bonds were steady today, with a slight advance in the price of U. S. Government bonds. The price of U. S. Government bonds was 100 1/2.

REDUCED RATES.

Fire auto insurance rates were reduced today, with a slight advance in the price of fire auto insurance. The price of fire auto insurance was 1.50 per \$1,000.

THE GUMPS

Joe Carr, Jims brother, after dramatically stopping the Ausstinn-Gold wedding is taken in custody for questioning and to give opportunity for checking his story that Ausstinn stole the \$10,000.

Now tell what you know about that \$10,000 robbery—YOU SAY YOU ARE TOM CARR'S BROTHER—AND HE IS INNOCENT—

ON THE NIGHT OF SEPTEMBER 18TH I WAS CHASED BY A GANG THAT WANTED TO TAKE ME FOR A RIDE—I RAN INTO MY BROTHER'S OFFICE FOR HELP—HE WENT TO GET HIS CAR TO DRIVE ME TO THE JUNCTION—AND LOCKED THE DOOR—I HEARD SOMEONE FUMBLING WITH THE DOOR LOCK—I HID—THIS FELLOW, AUSSTINN CAME IN—WALKED OVER TO THE SAFE—

HE TOOK A CARD OUT OF HIS POCKET AND READ THE NUMBERS—RIGHT 17—LEFT 31—RIGHT 9—THE COMBINATION OF THE SAFE—HE OPENED IT—TOOK OUT A ROLL AND COUNTED \$10,000.00 AND SAID—TOM CARR WILL HAVE A HARD TIME EXPLAINING WHERE THIS MONEY WENT—HE PUT IT IN HIS WALLET—THEN I KNOCKED HIM UNCONSCIOUS AND SHOWED HIM OUTSIDE—DURING THE EXCITEMENT I HID HIS WALLET IN A CHIMNEY HOLE ABOVE THE SAFE—AND MY BROTHER DROVE ME TO THE STATION—I HAVE NEVER DARED SHOW MYSELF FROM THAT DAY—TO THIS FOR FEAR OF THE GANG—I JUST LEARNED THAT THE THIEF WHO FASTENED THE CRIME UPON HIM IS ABOUT TO MARRY HIS SWEETHEART—

TAKE US TO THAT PLACE WHERE YOU SAY YOU HID THE MONEY—PROVE IT NOW—I THINK HE'S CUCKOO—

I FEEL SORRY FOR YOU, BOY—IF THIS IS THE HOOEY—

SHOW US THAT STOVE PIPE HOLE—

Rupture Kills
35,000 Annually—

—estimated on the basis of available official death records—one every 15 minutes is laid away—the burial certificate being marked "Rupture". Why? Because the unfortunate ones had neglected themselves or had been merely taking care of the swelling—a symptom of the affliction—and paying no attention to the cause.

What are you doing? Are you neglecting or perhaps even maltreating yourself by wearing a truss, appliance, or whatever name you choose to call it? At best, the truss is only a makeshift—a false prop against a collapsing wall—and should not be expected to act as more than a mere mechanical support. Its binding pressure retards blood circulation, thus robbing the weakened muscles of nourishment—the very thing they need most.

Learn how to close the hernial opening as nature intended so the rupture CAN'T come down. Fill out coupon below and mail TODAY.

MAJOR BURGLARIES SOLVED BY YOUTH'S ARREST, IS REPORT

Six Northwest Householders
Sign Complaints Against
18-Year-Old Prisoner.

CONFESSION CLAIMED: PART OF LOOT IS FOUND

Jewelry and Valuable Papers
Taken From Maj. Deavers'
Home Still Missing.

More than a score of housebreaking cases, in all sections of the city, are believed by police to have been solved through arrest of Lester Jackson, 18 years old, colored, of 22 McCollough street northwest, by Detective E. F. Lewis, of the Thirteenth Police Precinct.

Six charges of housebreaking already have been placed against Jackson, while a number of additional charges, including one of grand larceny, will be placed against the prisoner soon, Lewis said last night.

Police of the Thirteenth Precinct declare that Jackson has confessed to entering and robbing a number of places and has identified articles which he is alleged to have confessed taking from them and to have aided the police in recovering a large portion of the goods stolen.

Detective Lewis arrested Jackson Sunday on North Capitol street, near H street, after police had received a report that a woman relative had been seen wearing a dress stolen from one of the homes entered.

Six Complaints Signed.

At headquarters Jackson is charged with housebreaking on complaints of Katherine Brooks, 301 Todd place northeast; Allen Hampton, of the same address, and Blondina Strothers, 744 Fairmont street.

Three more complaints against Jackson have been made at the Tenth Precinct. These include warrants signed by David Zolner, 221 Allison street northwest; Waldo J. Tasset, 4140 Seventeenth street northwest, and Mrs. Beale E. Hurt, 1437 Shepherd street northwest.

Detective Lewis last night said that Jackson had confessed to entering the home of Howard Pollock, 1100 Fourteenth street northwest; a Mrs. Kiffin, 735 Rittenhouse street northwest; Maj. Deavers, 814 Sheridan street northwest; and Mrs. L. C. Smith, 1221 S street northwest. Lewis is checking on other places which Jackson is said to have admitted he entered, but could not remember what he got from each.

Part of Loot Recovered.

At the Blumington home, dresses, coats, other wearing apparel and a radio, in total valued at more than \$1,000, was stolen. The clothes have been recovered. From the Kiffin home, clothes valued at \$500 were stolen, most of which have been located by the police.

Cash in the amount of \$181 stolen from the home of Maj. Deavers has not been recovered but has an overnight bag containing jewelry and a necklace worth \$1,000. Valuable papers also were taken, including a check for \$1,000. The check was not cashed and the major had paid for an automobile which had not yet been delivered. Several dresses stolen from his home have been recovered.

Loot from the various homes was recovered in many pawnshops and second-hand stores in the downtown area. Detective Lewis said not all of it has as yet been identified.

Antituberculosis Unit
Planning Drive in April

The committee in charge of the educational campaign for the early diagnosis of tuberculosis yesterday afternoon completed plans for a drive in April, during which efforts will be made to familiarize the public with the disease.

Dr. J. W. Peabody, chairman of the committee, appointed a subcommittee to work for the better reporting of tuberculosis cases and to secure better facilities for the health department clinic. He also announced that during the April drive lectures will be given before medical societies, churches, clubs and parent-teacher groups.

Red Cross Plans Rites
At Walter Reed Easter

The working members of the various units and auxiliaries of the District Chapter of the American Red Cross will be transported to the Walter Reed Hospital on Easter Sunday if they report to the chapter headquarters at 821 Sixteenth street northwest by 6:30 o'clock that morning.

The workers are asked to wear the colors of the various units with their costumes. In order that arrangements may be made for the transportation it has been requested that all who wish to report to the chapter headquarters, telephone Main 1910, by Friday.

Barber Sued for Divorce.

Charles Pinocchio, proprietor of a barber shop at 925 Ninth street northwest, was sued for limited divorce yesterday in the District Supreme Court by his wife, Mrs. Mary P. Pinocchio, of 482 K street northwest. They were married at Union City, N. J., on May 27, 1927, according to the complaint, and lived together until a week ago, when he deserted her and left her without means of support. Attorney J. C. Turco appeared for the wife.

Policeman, Trapped Between Cars, Shoots

Vaughan Captures Driver
and Seizes One of
Liquor Autos.

Motorcycle Policeman V. V. Vaughan, of the Third Precinct, shot his way out of a jam yesterday, and believes that he was justified.

"I fired in defense of my life," the policeman reported. "I was trapped between two automobiles, a liquor car in front and a conveyer car behind. The front car was slowing up and the following machine was speeding up. I saw they were trying to crush me between the two cars like you crush nut in a nut cracker. There was nothing to do but shoot."

The policeman fired six shots, one of which punctured the gas tank of the front car. During the shooting the driver apparently became frightened and the car cracked into an automobile parked in front of 924 Twenty-second street northwest. It was immediately abandoned. Policeman Vaughan also abandoned his machine and gave chase on foot. One man, who he declared was the driver of the automobile, was arrested by him two blocks away in an alley. The conveyer machine escaped during the shooting.

44 Quarts Are Found.

Taken to the Third Precinct, the man gave his name as Floyd LeRoy Lamb, 22 1/2 years old, of 1434 Twenty-second street northwest. He was charged with transportation and possession of whiskey. Vaughan reported that 44 unbroken quarts of the liquor were found in the abandoned vehicle.

During the pursuit of the automobile, Vaughan said he saw through a glass man smashing bottles with a hammer. He also stated that when he returned to the machine after capturing the driver he found several more bottles floating around in several inches of whiskey in the bottom of the car.

Vaughan said the first noticed the liquor car and the first noticed the liquor car and the first noticed the liquor car and the first noticed the liquor car.

He was suspicious and maneuvered to position himself behind the conveyer machine and the car in front put on speed. Vaughan said he attempted to pass the

conveyer on the left and the driver swerved in an effort to run him into the curb.

He Explains Shooting.

"But I got by and that's when the fun started," Vaughan said. "If I first noticed a man in the car breaking bottles with a hammer and when I was just a few feet away I noticed the automobile was slowing up. I thought, 'I was going to make it easy capture when I heard a speeding motor behind and saw that the conveyer was right on my gun and started shooting.'"

Vaughan reported at the precinct that he believed the automobile he captured was an old offender. He stated that he and two other Third Precinct motorcycle policemen chased a similar machine about three months ago, but lost it in the vicinity in which the capture was made yesterday.

Richmond Authorities Would
Question Schenck About
Theft in That City.

Mrs. May C. Brown Is Facing
Trial for Wounding Mate
in Court Corridor.

25 OTHERS ARE ACCUSED
ADmits SHOOTING MAN

Twenty-six indictments were returned by the grand jury yesterday to Chief Justice Walter J. McCoy in the District Supreme Court. The jury ignored six charges.

An indictment charging performance of an illegal operation was returned against Dr. Louis W. Hoffman, physician, 1815 K street northwest, 36 years old, as a result of the death of Miss Eleanor Lehman, a pretty stenographer, in the office of Dr. Hoffman in the Victoria Building, March 3, 1928, from the effects of the operation.

Dr. Hoffman pleaded guilty to second-degree murder, is serving a 30-year prison term and was indicted in the present case as a matter of form. Parker, who is said to have been responsible for Miss Lehman's condition, and Samuel Wagshal, delicatessen store operator of 908 G street northwest, arranged with Dr. Hoffman for the operation and sent the girl to his office with Dottie King, a waitress at the delicatessen store. Wagshal was arrested in connection with the case, but declined to testify for the government against Parker.

Assault on Husband Indicted.

Mrs. May C. Brown, 40 years old, of 815 C street northeast, who shot and wounded her husband in a Police Court corridor on last February 1, was indicted on charges of assault with a dangerous weapon and assault with intent to kill. Mrs. Brown, it is charged, became enraged when trial of a statutory charge against the husband, Charles A. Brown, was postponed at the court and shot down the man as he emerged from the courtroom.

Assault with a dangerous weapon was charged against William Lawson, half-blind colored man, in connection with the shooting of Policeman Allen B. Baker, of the Sixth Precinct, on February 12. The shooting occurred when Baker and several other policemen were entering Lawson's home at 1815 C street northeast, where he was hearing cries of "Murder, help, police."

The charges ignored by the jury were Theodore A. Shumaker, housebreaking; Val Johnson and William Poindeux, assault with a dangerous weapon; George Duval and Douglas Williams, robbing; Mable Douglas and Erline Thomas, receiving stolen property.

Housebreaking and larceny Indictments were made against Jesse E. Williams, 1815 C street northeast; Charles Holt, Luther Chapman and John Spencer Lee. Grand larceny was charged against Oscar Crutched, William John Miller, John Joseph, and Thomas Barnes, Lester Moore and Thomas Barnes, who also was charged with transportation of private property.

Shumaker was charged with housebreaking. Shumaker was charged with housebreaking.

Charles J. Marchant, alias J. C. Reaver, was charged with larceny in connection with obtaining funds from Thaddeus C. DeValle and Robert C. Daniels in exchange for stock in an alleged fraudulent aviation manufacturing concern. Ernest Berlin Bates, orderly at the Naval Hospital, was accused of forgery and uttering of false Treasury Department checks made out to patients at the hospital.

Nonreport accusations were made against William Dodson, James Walter White and Raymond Gallatin. Robert Sloan was charged with assault with intent to kill. Mable Douglas was charged with robbery; Joseph Lee, joy riding; Christopher C. Ryan, receiving stolen property; and George Duval, assault with a dangerous weapon and assault with intent to kill.

Thornton Wilder Talk
Closes Lecture Season

The 1928-29 season of the Community Institute of Washington, which began tonight with a lecture by Thornton Wilder. Plans already are being made for the next season and tonight before the after the lecture patrons will be given an opportunity to make suggestions concerning the next program.

Announcement was made that the board of directors of the institute are pleased by the success of this season and that the Washington Society of Fine Arts and the Public Library will cooperate with the community center in bringing a series of cultural events of the highest order to Washingtonians next season.

Worker Dies of Injury

Ruben Waller, colored, 38 years old, of 1300 O street northwest, a laborer who suffered injuries to his head while carrying bricks for construction work at Forty-fourth street and Greenview parkway northwest on March 18, died yesterday at Freedmen's Hospital.

Building of Adequate Field Is
Declared First Need
by Group Head.

Washington will be the scene of the greatest mobilization of aircraft in all history if the aviation program of the Board of Trade is realized in 1932, it was predicted yesterday by officials of the National Aeronautic Association.

If the proposed municipal airport is ready by that time and if the national air race and big aircraft exposition are staged here, these officials expect an invasion of from 500 to 1,000 planes.

Lawrence E. Williams, chairman of the aviation committee of the Board of Trade, announced yesterday that in addition to pushing this threefold program, the committee would like to have the National Aeronautic Association hold its annual convention here in 1932.

Birthday of Washington.

In the meantime, the city would be celebrating the 200th birthday of George Washington. The committee would like to have the National Aeronautic Association hold its annual convention here in 1932.

Hugh Miller, Post Staff Photographer.
POLICEMAN V. V. VAUGHAN.

Washington will be the scene of the greatest mobilization of aircraft in all history if the aviation program of the Board of Trade is realized in 1932, it was predicted yesterday by officials of the National Aeronautic Association.

If the proposed municipal airport is ready by that time and if the national air race and big aircraft exposition are staged here, these officials expect an invasion of from 500 to 1,000 planes.

Lawrence E. Williams, chairman of the aviation committee of the Board of Trade, announced yesterday that in addition to pushing this threefold program, the committee would like to have the National Aeronautic Association hold its annual convention here in 1932.

Birthday of Washington.

In the meantime, the city would be celebrating the 200th birthday of George Washington. The committee would like to have the National Aeronautic Association hold its annual convention here in 1932.

COLLENS WILL ASK JURY MEN TO INDICT HORNER WITNESSES

Dr. Dollman, Morris Rodman
and C. P. Beckley Accused
After Testimony.

UNDATED PRESCRIPTIONS IS CAUSE OF COMPLAINT

Physician Already Under an
Indictment on Charge of
Exceeding Limits.

Indictments charging Dr. Mazarin C. Dollman, prominent physician, and Morris Rodman and C. P. Beckley, pharmacists, with violations of the Harrison antinarcotic law in connection with narcotic prescriptions given to Mrs. Stanley Horner, pretty young wife of Stanley Horner, attorney, and distributor, were sought of the District grand jury.

District Attorney Leo A. Rover made this announcement yesterday, after his assistant, William H. Collins, had conferred with Col. L. G. Smith, in charge of the narcotics division of the Internal Revenue Bureau, over the advisability of instituting prosecution proceedings against the three.

The basis of the charge against the trio will be the testimony they gave for the government in the recent trial of Mrs. Horner, charged with forging and uttering five of the narcotic prescriptions. She was acquitted of all charges by a directed verdict ordered by Judge Robert F. Healy.

The three admitted on the witness stand that virtually all of the 222 prescriptions for drugs issued to Mrs. Horner by Dr. Dollman and Beckley by Rodman and Beckley at the Argyle Pharmacy, Seventeenth street and Park road northwest, were undated.

Dr. Dollman admitted that he had prescribed a large number of these prescriptions by dates, which, he admitted, they wrote on the drug orders at the time of redemption.

The Harrison law decrees that a physician in issuing drug orders must not only sign but date the prescription at the time of issuance. The law also forbids a pharmacist from reissuing a prescription unless it meets with the two legal requirements.

Acquittal Was Won.

The directed verdict of "not guilty" was obtained for Mrs. Horner on the testimony of the physician and pharmacist. Her counsel, Milton King and John H. Burnett, contended that in so far as the Harrison law is concerned, they were not legal instruments and consequently there could be no forgery. Rover declared he had instructed Judge Healy to carry out the law in the case of the three defendants.

Dr. Dollman is now under indictment for violation of the Harrison law in connection with issuing three prescriptions to Mrs. Horner beyond the bounds of his professional duties. Rover declared the charges against the physician would be sought in the new indictment.

\$20,000 in Women's
Clothing Is Stolen

Connecticut Avenue Salon Is
Robbed by Thieves Entering
Second Floor.

Police detectives yesterday were seeking to apprehend the robbers who entered a clothing store at 1213 Connecticut avenue northwest some time between Saturday night and Monday morning.

Although the robbery was discovered when the place was opened for business yesterday, police worked on it all Monday in secret, no official report being made until yesterday.

Included in the loot are gowns, evening wraps and coat suits. The report to the police was made by Mrs. Agatha Cadwell, who operates the store. She reported that the robbers, who gained entrance through a second-floor rear window, overlooked some very expensive clothing while making their way from the second to the first floor.

Man Under \$2,500 Bail
On Jones Law Charge

Howard Kenney, colored, 21 years old, of 1820 L street northwest, was held on grand jury action in \$2,500 bail by Judge Isaac R. Hitt yesterday in Police Court on a charge of transporting and possessing liquor in violation of the Jones law.

He was arrested on a warrant sworn to by Patrolman Anthony Richt, of the Fourth Precinct, after the finding of liquor in his car. Kenney was released on \$2,500 bail.

10 Zoning Changes
To Be Argued Today

Proposal to Permit Shops in
Apartment Buildings Will
Be Considered.

Ten changes in the zoning of various properties governing shops in apartments in residential areas will be considered at a public hearing by the District Zoning Commission, at 10 o'clock this morning, at the board room of the District Building.

The proposed amendment to zoning regulations to permit shops in apartment buildings will be considered at the hearing. The changes were carried over from the last hearing of the commission. Under the proposed amendment only shops which had no street entrance but which were located directly within the apartments would be permitted.

The first commercial zone would be extended along Connecticut avenue under one of the proposed changes. This would be from 600 to B street and C street to 600 foot street commercial, both sides of Connecticut avenue from the bridge to Cathedral avenue, extending the space occupied by Wardman Park annex and the north side of Calvert street from Woodley place to Connecticut avenue.

H. P. Ames Made Reserve Captain.

Henry Beck Ames, 257 Marion avenue, Clarendon, Va., has been commissioned a captain in the cavalry reserve and was announced yesterday at the War Department.

35 Calomel Grains Taken
By Girl, 3, Hunting for Candy

Southern Railroad Co., who took the child to the hospital.

Dr. J. E. Lewis, who treated the little girl, said that her condition is somewhat improved, but is still serious.

Elizabeth and her father are members of one of the oldest Georgetown families, being direct descendants of Col. Ninian Beall, grantee in the seventeenth century of the site of Georgetown from the King of England, famed Indian fighter and founder of the Presbyterian Church in America.

A memorial to him, known as Beall's Boulder, stands at Dumbarton and Prospect avenues in Georgetown.

Man Held for Grand Jury
